

MARKING SERVICES, INC.

## MS-900 SELF ADHESIVE ELECTRICAL SYSTEM ID MARKERS

### DESCRIPTION

MS-900 self-adhesive electrical ID labels are premium grade vinyl with an acrylic pressure-sensitive adhesive.

- Use MS-900 adhesive labels to identify a plant's electrical services and equipment.
- Designed for labeling conduit, panel boxes, circuit breakers and connections to equipment
- Black text on orange labels provide a highly visible warning of potential electrical hazards
- Premium MS-900 material insures a durable long lasting marker both inside and outside
- Custom legends and other color combinations are available

### PHYSICAL & CHEMICAL CHARACTERISTICS

<b>Film:</b>	.0032" (0.081 mm) thick PVC
<b>Adhesive:</b>	permanent pressure-sensitive acrylic
<b>Application Temperature:</b>	+50°F (10°C)
<b>Service Temperature Range:</b>	-50°F to +180°F (-45° to 82°C)
<b>Water Resistance:</b>	Excellent
<b>Storage Stability:</b>	Two years when stored at + 73°F (23°C) and 50% relative humidity
<b>Chemical Resistance:</b>	Resistant to mild acids, alkalies and salts
<b>Available Sizes:</b>	1/2" x 2-1/2", 1" x 8", 2" x 9"

\*Custom legends and sizes available.
