

## MS-1000 PRE-PRINTED WIRE AND TERMINAL MARKERS

### Technical Data

#### Description

MS-1000 self-adhering, pre-printed, self-laminating wrap around wire and terminal markers are premium outdoor grade clear material with an acrylic pressure-sensitive adhesive. They are used to provide branch circuit or feeder numbers for power and lighting circuits and system color-coding. They may be ordered pre-printed and in custom colors including clear.

MS-1000 wire and terminal markers are available in a variety of standard sizes to fit all common wire sizes. Custom sizes are available. Text height based upon wire size.

#### Physical and Chemical Characteristics

|                                 |                                                                 |
|---------------------------------|-----------------------------------------------------------------|
| <b>Film:</b>                    | 0.002" (0.005 mm) with 0.001" adhesive – total thickness 0.003" |
| <b>Adhesive:</b>                | Permanent pressure-sensitive acrylic                            |
| <b>Application Temperature:</b> | +50°F (10°C)                                                    |
| <b>Service Temp. Range:</b>     | -65°F to +225°F (-54°C to 107°C)                                |
| <b>Water Resistance:</b>        | Excellent                                                       |
| <b>Outdoor Durability:</b>      | Five years when properly applied                                |
| <b>Storage Stability:</b>       | Two years when stored at +73°F (22°C) and 50% relative humidity |
| <b>Chemical Resistance:</b>     | Resistant to acids, alkalis and salts                           |

*Information on physical and chemical characteristics is based on tests we believe to be reliable. The values are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of this material for their specific application.*
