

MS-970 COILED STYLE TM MEDICAL GAS MARKERS

Technical Data

Description

MS-970 coiled plastic Medical Gas pipe markers are designed to identify piping in a wide variety of environments. They stay in place on pipes due to the memory of the coiling process and therefore do not rely on a pressure-sensitive adhesive.

No preparation of the pipe surface is required for application, so installation time is reduced compared to conventional stick-on marker systems. Legends are sub-surface printed so they are protected by a layer of plastic.

Ideal for dirty or sweating pipes where adhesive markers cannot be used. No pipe surface preparation needed. Coiled construction quickly snaps around pipe. All MS-970 pipe markers are manufactured using material which has been independently tested and meets the requirements of UL-94 classification V-0 for self-extinguishing materials.

Standard and custom legends available.

Flow direction arrows are printed on each marker.

Manufactured per NFPA-99C; CGA C-9-2002 "Standard Industry Color Coding Recommendations for Medical Gases"
