Marking Services Inc. offers MS-970 coiled pipe markers, your fastest and easiest method for installation of pipe markers. MS-970 pipe markers are designed to identify piping in a wide variety of environments, especially in applications where the pipe surface is rough, oily, wet or rusty. Our pipe markers stay in place on pipes due to the memory of the coiling process, and therefore do not rely on adhesives. No preparation of the pipe surface is required for application, so installation time is reduced. These pipe markers wrap completely around the pipe with flow direction arrows included on all markers. Legends are subsurface printed to protect them from environmental deterioration.

- Coiled construction quickly snaps around pipe
- Ideal for rusty, dirty or sweating pipes where adhesive markers cannot be used
- No pipe surface preparation needed
- Can be removed and reused
- Nylon straps secure marker in place on larger pipes
- Service temperature range: 40° F to 160° F (40° C to 71° C)
- Hundreds of standard legends to choose from
- Standard background colors: Yellow, Green, Red, Blue, White, Orange
- Standard copy colors: White, Black
- Flow direction arrows are printed on each marker
- Custom markers are available to meet your specific needs
- Complies with ASME A13.1 “Scheme for the identification of piping systems” with regard to color, letter height and marker size
- For use indoors and where high heat is not present

October 2016
### Pipe Diameter (including insulation) | Style Marker | Marker Width | Character Height | Marker Type
--- | --- | --- | --- | ---
1/4" – 3/8" | TM | 3" | 1/4" | Coil-on
1/2" – 1" | A | 8" | 1/2" | Coil-on
1 1/8" – 2 1/4" | B | 8" | 3/4" | Coil-on
2 3/8" – 3 1/4" | C | 12" | 1 1/4" | Coil-on
3 3/8" – 4 1/2" | D | 12" | 1 1/4" | Coil-on
4 5/8" – 5 7/8" | E | 12" | 1 1/4" | Coil-on
6" – 7 7/8" | F or FC | 12" | 1 1/4" | Strap-on/Coil-on
8" – 10" | G | 24" | 2 1/2" | Strap-on
Over 10" | H | 32" | 3 1/2" | Strap-on

MS-970 pipe markers can be customized to meet your specific needs. Our custom pipe markers are fast, easy and economical with most orders shipping in 24 to 48 hours. MSI custom pipe markers provide an alternative for identifying pipes when standard legends won’t work. Choose the operations that best suit your needs - include any or all of the following on one marker:

- Pipe contents
- Line numbers
- Lines origin (“From...”) and destination (“To...”)
- Equipment numbers
- Flow direction

Marking Services improves and standardizes the identification of hazards and components to promote safer work environments and minimize downtime due to errors or accidents. We provide a full complement of identification products designed to fulfill all needs for identification in nearly any environment. Through our commitment to providing value-added services, high-quality products and on-time delivery, MSI offers you a one-stop, comprehensive source for all your identification needs.
