

# PRE-PRINTED HEAT SHRINKABLE WIRE MARKERS

## Technical Data

### Description

MSI Pre-Printed, heat shrinkable wire markers are made from top quality 2:1 polyolefin, and printed with abrasion resistant text to customer needs. Applied with any standard heat gun.

Two sizes are standard, .25" and .125" pre-shrink diameter, which covers the wire sizes AWG 8 to AWG 24. Other sizes and colors are available upon request. Lengths starting at 2".

### Physical and Chemical Characteristics

<b>Material:</b>	Polyolefin - UL Listed
<b>Shrink Ratio:</b>	2:1
<b>Shrink Temperature:</b>	212°F (100°C)
<b>Operating Temperature:</b>	-67°F to 275°F (-55°C to 135°C)
<b>Standard Diameters:</b>	.125" (3.1 mm) and .25" (6.3 mm)

*Information on physical and chemical characteristics is based on tests we believe to be reliable. The values are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of this material for their specific application.*
