

Description

MSI's self-adhesive, pre-printed, self-laminating wire and terminal markers are designed to provide branch circuit or feeder numbers for power and lighting circuits and system color coding. Standard marker color is black on white, custom colors are also available.

Physical and Chemical Characteristics

Film:	0.002" (0.005 mm) thermoplastic with 0.001" adhesive – total thickness 0.003"
Adhesive:	Permanent pressure-sensitive acrylic
Application Temperature:	+50°F (10°C)
Service Temp. Range:	-15°F to 180°F (-26°C to 82°C)
Water Resistance:	Excellent
Expected Outdoor Durability:	3 - 5 Years
Storage Stability:	Two years when stored at +73°F (22°C) and 50% relative humidity
Chemical Resistance:	Excellent

Information on physical and chemical characteristics is based on tests we believe to be reliable. The values are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of this material for their specific application.
