STAINLESS STEEL JACK CHAIN

Technical Data

Description

Our Type 304 Stainless Steel Jack Chain is supplied in boxes of 50 feet per box. The wire diameter is .0625" with approximately 23 links per foot. The maximum working load limit is 10 pounds.

The chain is ideal for use in highly corrosive or caustic environments and can be cut to accommodate large valves.

MSI Part Number: 15761

Information on physical and chemical characteristics is based on tests we believe to be reliable. The values are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of this material for their specific application.
