

PRE-PRINTED HEAT SHRINKABLE WIRE MARKERS

Technical Data

Description

MSI Pre-Printed, heat shrinkable wire markers are made from top quality 2:1 polyolefin, and printed with abrasion resistant text to customer needs. Applied with any standard heat gun.

Two sizes are standard, .25" and .125" pre-shrink diameter, which covers the wire sizes AWG 8 to AWG 24. Other sizes and colors are available upon request. Lengths starting at 2".

Physical and Chemical Characteristics

Base Material:	2:1 Polyolefin
Material Thickness:	various
Service Temperature:	-67°F to 275°F (-55°C to 135°C)
Application Temperature:	n/a
Chemical Resistance:	Good
Water Resistance:	Excellent
Expected Outdoor Durability:	Indoor Use Only
Storage Durability:	5+ Years
Abrasion Resistance:	Excellent
Mounting:	212°F (100°C) to obtain proper shrinking
Finish:	Matte finish
Text Height:	Sized to fit within tag boundary or comply with specified height
Typical Sizes:	.125" (3.1 mm), .25" (6.3 mm), .5" (13mm), 1" (25mm) - Others available upon request
Standard Colors:	White with black text - other colors available upon request
Options:	n/a
Chemical Table:	n/a

Information on physical and chemical characteristics is based on tests we believe to be reliable. The values are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of this material for their specific application.
