

WHITE ENAMELED ALUMINUM TAGS

Technical Data

Description

White Enamel Aluminum. Use for equipment plates to show model name and characteristics specific to a piece of equipment. Can be used to show maintenance instructions and operating procedures.

For indoor use only. Available with UV Overlaminates or Rugged-Kote for outdoor use.

Available in 1"x3", 2"x4", 4"x6", 5"x7", 7"x10", 10"x14", and 14"x20" plates. Equipment tags come with standard 3/16" mounting holes or adhesive. Custom sizes available.

Solid Brass or Stainless Steel "S" hooks or jack chain is used to attach tag to provide a tough, sturdy and corrosion resistant fastener.

Physical and Chemical Characteristics

Table with 2 columns: Property and Value. Rows include Base Material, Material Thickness, Service Temperature, Application Temperature, Chemical Resistance, Water Resistance, Expected Outdoor Durability, Storage Durability, Abrasion Resistance, Mounting, Finish, Text Height, Typical Sizes, Standard Colors, Options, and Chemical Table.

Information on physical and chemical characteristics is based on tests we believe to be reliable. The values are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of this material for their specific application.
