

STAINLESS STEEL BRAIDED WIRE AND CRIMPS

Technical Data

Description

Stainless Steel Type 316 Braided Wire and Crimps provide tough, sturdy and corrosion resistant fasteners that are ideal for the highly corrosive environments of pharmaceutical manufacturing, petrochemical facilities and other harsh environments.

Stainless Steel Type 316 Braided Wire*

Part #15747

14 Gauge

0.063" Diameter; 7-Ply x 7-Ply (1.6 mm) 100

Foot Roll (30.4 meter)

Adheres to Federal Specification RR-W-410, Type VI, Class 2

Stainless Steel Type 316 Crimps*

Part #15746

100 Per Bag

Stainless Steel Type 316 Braided Wire/Crimp Combination*

Part #15750

10" Length (3.0 meter)

Pre-Attached Crimp

Crimp Tool

Part #15749

Cable Wire Cutter

Part #15748

**Crimp Tool & Wire Cutters are required for installation*

Information on physical and chemical characteristics is based on tests we believe to be reliable. The values are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of this material for their specific application.
