Marking Services Incorporated*

MSI CORE PHILOSOPHY

Logical, thorough, and consistent communication is imperative for the safe and reliable operation of commercial and process facilities. At MSI, we want to help you establish guidelines and specifications to communicate meaningful information to facility personnel in support of safe operations, emergency response, and compliance with regulatory requirements through an effective and durable plant labeling system. MSI wants your facility to be set up with "best practices" for plant labeling products, services, and instant access to critical asset information using mobile technology.

Durable labeling installed properly and effectively is intended to support process safety management and uninterrupted production by providing critical information to plant personnel in a standardized and consistent manner. The objectives of asset management and identification from MSI are designed to deliver the following benefits:

1) Process Safety Management (PSM):

PSM is an integral part of safe, reliable, and effective plant operations. Benefits of enhancing a PSM program with respect to labeling include:

- Enhanced facility safety & productivity
- Improved operator training
- Assistance for maintenance personnel by providing instant access to asset information like operation and maintenance manuals and work procedures direct at the asset
- Reduced risk of equipment downtime
- Aid and support for emergency response personnel

2) Hazard Reduction and the Prevention of Human Error

A comprehensive and effective labeling program contributes to the effective functioning of process operations and limits the potential for downtime or injuries due to operations or maintenance errors.

3) Uniformity of Labeling Nomenclature

A labeling program that is standardized and consistent contributes to the flow of information and feedback among all affected departments including: operations, maintenance, safety, environmental, quality, administration, supply, and management. Information flow regarding piping, equipment, valves, instrumentation, and hazards shall be understood by all parties because of the standard definitions and specific identification included on each label, sign, or tag.

4) Regulatory Compliance

Industries subject to government oversight or compliance testing can store critical data directly at the asset location and retrieve this data during inspections. Using mobile technology, critical information can be retrieved at the asset without having to dig for information in engineering libraries.

Want more information? Visit our website to see our full assortment of products and services.

TRACTOR SERVICES

We provide a single source for all mechanical and electrical labeling needs. More than simply creating your labels, you'll benefit from the smart choices we have developed to help manage your largest expense, labor.

From take-off services to quickly installed labeling products, we can help you complete any size labeling challenge efficiently and cost-effectively. Through our value-added services and high-quality products, we significantly raise the level of safety awareness, and reduce your in-place costs.

Material Take-Off Service

Our Material Take-Off service lowers in-place costs and provides added value. This service is designed for a wide range of projects in healthcare, government, public safety, medical, education, and telecommunications facilities. Working with us from the beginning saves project managers time they would otherwise spend creating a list of identification products. As an added value to our Take-Off Service, we will also package your materials per your specification using our Pack-By Service. This allows materials to be packaged in a way that eliminates sorting and saves you time and money during installation.

Submittal Service

We know that part of your contract with customers requires you to provide submittal documents for all the products you supply. As a service to you, we will prepare any and all labeling submittal documents that will meet your customer's requirements.

WNER SERVICES

Our turnkey asset identification products & services provide you with a single source for all facility identification needs. By organizing the elements of each facility's asset information, we standardize labeling thereby promoting safer work conditions. We help you manage your facilities better; achieving long-term cost savings associated with faster, more efficient plant commission, start-ups, and improved operator training. We have expertise in streamlining labeling and providing custom labeling solutions for major construction projects or existing facilities.

Technical Drafting Service

Our technical drafting services focus on the development of accurate as-built drafting products and services for any industry. From piping and instrumentation diagrams (P&ID's) to facility site plans, our drawings visually communicate valuable asset information and are an essential tool for engineering, maintenance, and health & safety personnel. In the absence of quality information available we utilize 3D laser scanning technology to collect data about a facility's operating environment to use in the development of accurate P&IDs and labeling.

Installation Service

Our turnkey installation process systematically installs permanent asset identification without you devoting personnel time or direct supervision. Our crews are experts at installing identification in a timely, consistent, and safe manner.

Engineering

Our staff of full-time professionals is experienced in the intricacies of developing and implementing a total identification system. Our engineering uses a comprehensive approach to creating an efficient identification program for your facility.

ECHNOLOGY

TLAS and Any public is phology take asset identification and the execution of the products are now at ways of ities information. Our technology provides personner access to critical operations of human errors, and training of plant personner access to the hazard reduction, prevention of human errors, and training of plant personners, and training of plant personners.

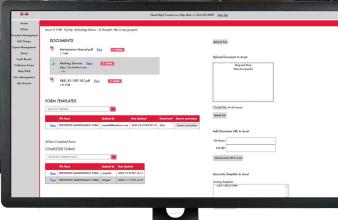

ATLA!

AIM Mobile Technology

dent operations. AIM allows users the ability to access citizal documents and form procedures associated with the asset simply by scanning AIM Identification

INTERS

Coiled Pipe Markers

hese pipe markers are built with a pre-coiled design, allowing for asy installation by wrapping around the pipe and self-sealing. hey can be removed and re-installed for easy access to the pipe urface.

elf-Adhesive Pipe Markers

rinted on premium quality, fade-resistant material, our Self-dhesive Pipe Markers are used to address multiple labeling needs om line service designations to system color-coding.

uct Markers

rinted on a highly visible self-adhesive material, our Duct Markers re used to identify airflow/equipment in a ductwork system, as rell as to be used in plenums to help prevent the spread of smoke gases in the event of a fire.

arrier Pipe Markers

onsisting of a MS-995 pipe label applied to either a rigid curved r stainless steel carrier, these markers are durable indoor & outdoors with excellent resistance to elements like water, UV rays, or chemicals.

MS-995 Coiled Pipe Markers

MS-995 Coiled Pipe Markers are manufactured for extended life in harsh surroundings involving process chemicals, food processing, pharmaceuticals, water treatment, and marine & offshore environments. They are tested and produced to withstand prolonged exposure to direct sunlight, salt water, harsh process chemicals, acids, caustics, and hydrocarbons.

- Pre-coiled markers install easily by wrapping entirely around the pipe diameter and self-sealing with a lockdown strip
- Installation can be on either bare or insulated pipe and requires no surface preparation for attachment since they bond to themselves, not the pipe surface
- Can be removed and reinstalled
- ASME A13.1-1996 colors available upon request

Custom MS-995 Coiled Pipe Markers

Custom pipe markers are available to meet plant specific needs for color, pipe diameter, and information (including from/to, P&ID numbers, line numbers, pipe contents, flow direction, etc.).

Styles Available

MS-995 Coiled Pipe Markers are available in nine standard sizes to fit pipes with overall outside diameters of 3/8" through 18" (including insulation thickness).

*MS-995 markers comply with ASME A13.1, except styles J, K, L & N which do not comply with the ASME A13.1 standard regarding marker size and letter height.

Pipe Diameter (Including Insulation)	Marker Style	Marker Width	Character Height
3/8" - 1/2"	TM	3"	1/4"
1/2" - 1"	Α	8"	1/2"
11/8" - 21/4"	В	8"	3/4"
21/2" - 43/4"	D	12"	11/4"
5" - 71/8"	Е	12"	11/4"
8" - 10"	J*	12"	11/4"
11" - 12"	K*	12"	11/4"
13" - 15"	L*	12"	11/4"
16" - 18"	N*	12"	11/4"

ORDER MS-995 Coiled Pipe Markers

MS-970 Coiled Pipe Markers

For indoor environments where high heat and harsh chemicals are NOT present.

MS-970 Coiled Pipe Markers are constructed of semirigid material and are designed to identify piping in a wide variety of environments, especially in applications where the pipe surface is rough, oily, or wet. They stay in place on pipes due to the memory of the coiling process, and therefore do not rely on adhesives. Complies with ASME A13.1.

Features

- Coiled construction quickly snaps around pipes
- No pipe surface preparation needed
- Self-locking adhesive strip keeps marker in place even on vertical pipes
- Plastic nylon straps are included to secure marker in place on pipes 6" or larger
- Can be removed and reused
- Flow direction arrows are printed on each marker
- ASME A13.1-1996 colors available upon request

Custom MS-970 Coiled Pipe Markers

- No setup charges
- No minimum order quantity
- Include any combination of the following items to make up the marker legend: pipe contents, origin (from) and destination (to), line numbers, equipment numbers, and flow direction
- Multiple color combinations available
- Custom sizes and colors available

Pipe Diameter (Including Insulation)	Marker Style	Marker Width	Character Height	Marker Type
3/8" - 1/2"	TM	3"	1/4"	coil-on
1/2" - 1"	Α	8"	1/2"	coil-on
11/8" - 21/4"	В	8"	3/4"	coil-on
23/8" - 31/4"	C	12"	11/4"	coil-on
33/8" - 41/2"	D	12"	11/4"	coil-on
45/8" - 57/8"	Е	12"	11/4"	coil-on
6" - 71/8"	*F	12"	11/4"	strap-on
8" - 10"	*G	24"	21/2"	strap-on
over 10"	*H	32"	31/2"	strap-on

^{*}Style F Markers include two 36" nylon straps

- Additional straps available if needed

MS-900 Self-Adhesive Pipe Markers

For line service identification and system color-coding.

- Complies with ASME A13.1
- Printed on premium quality, fade-resistant material
- Adheres well to pipe and insulation with only limited surface preparation
- Legend markers can be used with arrow tape or separate arrow markers to indicate flow direction (see page 25 for arrow tape)
- Add UV Overlaminate for outdoor use

Custom MS-900 Self-Adhesive Pipe **Markers**

- No set-up charges or minimum quantity requirement
- Custom colors available
- ASME A13.1-1996 colors available upon request

Marker Style	Pipe Diameter (Including Insulation)	Marker Size	Character Height
Α	3/4" - 21/4"	1" x 8"	3/4"
В	21/2" - 71/8"	21/4" x 13"	13/4"
C	8" - 10"	4" x 24"	21/2"
D	Over 10"	4" x 32"	31/2"

Note: Arrow markers are half the length of pipe markers.

MS-900 Self-Adhesive Economy Pipe Markers

Supplied in sheet or roll form. Sheet form is supplied in 5 arrows & markers per sheet, with no minimum order requirement. Roll form is supplied in increments of 6 rolls of 50 identical markers and flow directional arrows, with a minimum of 6 rolls per text/background combination.

- Markers are 2" x 9" and the directional arrows are 2" x $4\frac{1}{2}$ ". Letter/arrow height is $1\frac{1}{4}$ "
- Scores between markers and arrows ensure easy handling and application
- Use separately or with color banding tape for complete low-cost marking system

MS-900 Self-Adhesive Medical Gas Markers

MS-900 Self-Adhesive Medical Gas Markers are an economical and easy way to mark tubing or piping less than 1" in diameter. Manufactured per NFPA-99C; CGA C9-2002.

- Legend and flow direction arrows are combined on one pressure-sensitive marker
- Markers are 3" x 3" and wrap completely around the pipe for easy installation. 4" x 4" & 6" x 6" also available
- Supplied in rolls of 100, or individual pieces for ordering the exact quantity of labels you need

MS-900 Self-Adhesive Markers for Tubing & Small-Bore Piping

MS-900 Self-Adhesive Tubing & Small-Bore Markers are an economical and easy way to mark tubing or piping less than 1" in diameter. Our tubing and small-bore markers are suitable for line marking identification and system color coding.

- Legend and flow direction arrows are combined on one pressure-sensitive marker
- Supplied in rolls of 100, or individual pieces for ordering the exact quantity of labels you need
- ASME A13.1-1996 colors available upon request

MS-900 Self-Adhesive Mini Pipe Markers

These self-adhesive mini pipe markers (style "T") are great for labeling $\frac{1}{4}$ " - $\frac{3}{4}$ " process lines, tool connections, or utility piping. Our mini pipe markers are suitable for line marking identification and system color-coding.

Mini pipe markers are made from a durable material with pressure-sensitive adhesive, making them easy to install. Simply clean and dry the pipe, remove the marker from the coated paper backing and place in the desired location.

- Identify piping carrying chemicals and gases used in the production of semi-conductors and components
- Easy-to-install, adhesive backed, permanent markers
- Custom legends, chemical abbreviations and point of connection labels are available
- Style T markers are ½" x 2½" and sold 10 labels per sheet

MS-900 Self-Adhesive Duct Markers with Attached Scored Arrow

Used to identify the air flow and equipment in a ductwork system.

- Highly visible color-coded labels make it easy to differentiate between different systems
- Scored arrow markers designate direction of flow
- Markers can be customized to designate the specific system or equipment of origin

MS-900 Self-Adhesive Plenum Duct Markers

Plenum rated duct markers are metalized self-adhesive labels tested to meet the requirements of E-84-03 "Standard Test Method" for surface burning characteristics of building materials.

- Standard plenum rated duct markers are available with black text on metallic grey background
- Designed for use in plenums to help prevent the spread of smoke and gases in the event of a fire
- Custom colors available

MS-995 Curved Carrier Pipe Markers

MS-995 Curved Carrier Pipe Markers are a strap-on, rigid material pipe marker consisting of a mechanically applied MS-995 pipe label and two slotted nylon feet. The MS-995 strap-on pipe markers may be used in all applications of piping with ¾" and greater outside diameter including insulation. A coated stainless steel banding is recommended.

These carriers are of a universal design, with full length slots on the reverse side to allow for a wide variety of attachment points. The foot assembly may be strapped to the pipe prior to attaching the carrier, or the carrier assembly may be strapped as a unit to the pipe, allowing for maximum installation flexibility.

- UV Overlaminate provides excellent outdoor durability and resistance to a variety of acids, bases, and solvents
- Curved shape increases readability and reduces direct sun exposure
- Designed & tested to withstand up to 150 mph wind velocity for one hour
- Complies with ANSI 13.1
- See accessories section for mounting options

Pipe Diameter	Part #	Marker Size	Carrier Size
3/4" - 17/8"	CAR995MJ	11/2" x 9"	2.2" x 10"
2" - 71/8"	CAR995MF	21/4" x 16"	3½" x 17"
8" or greater	CAR995M	4" x 32"	5" x 33"

Metal Stencils

Pre-cut stencils are available for an economical way to mark piping. A variety of letter heights are available to comply with ASME A13.1 recommendations.

- · Durable metal material
- Can be reused
- Customizable text

Plastic Reusable Stencils

- Can be reused
- Customizable text
- Available in several different sizes

12 oz. Spray Stencil Ink

- Permanent, quick-drying, weather resistant ink
- Provides high-contrast marking on pipes and insulation

Part #	Color
61101	Black
61101WHT	White
61101BLU	Blue
61101RED	Red
61101YEL	Yellow
61101GRN	Green
61101ORG	Orange

MS-995 High-Temperature Stainless Steel Markers

MS-995 Stainless Steel Pipe Markers are for use on piping that has a surface temperature range up to 350°F.

- Markers consist of MS-995 label mechanically applied to a flat stainless steel carrier
- Includes stand-off brackets with heat-reducing spacers to hold the printed pipe marker away from the heat of the pipe's surface
- See accessories section for mounting options

Ceiling Locator Tacks

Ceiling Locator Tacks are ideal for marking the location of dampers, booster coils, and controllers above acoustical ceiling tiles. Simply push equipment locator tacks into ceiling tile or insulation near closest access point.

- %" ceiling tacks
- Come in packs of 25
- Serrated ceiling markers with and without removable retention disk fastener available
- Multiple colors available

Engraved Plastic Valve Tags

- Engraved legend clearly shows against contrasting background, so the tags are easy to read
- Standard tags are engraved on 1/16" plastic with mounting holes or adhesive backing [1/8" thick, 3 ply also available]
- For indoor and outdoor applications
- Custom colors, sizes, and legends available
- Comes with one standard top hole

Brass Valve Tags

Brass valve tags are an effective choice for labeling valves and systems.

- Available in sequential or one-off numeric legends
- Comes with one standard top hole
- Custom sizes and legends available

Anodized Aluminum Valve Tags

Easy to read anodized aluminum valve tags provide a highly visible contrast between the engraved legend and the colored background.

- Use to tag valves, instruments, small piping, cables, or fugitive emission
- .032" thick tags are available in 11/2" and 2" round or square, each with one 3/16"
- Background colors available: Green, Red, Blue, Gold, Black, Orange, and Natural
- Custom sizes and legends available

Stainless Steel Valve Tags

Designed to withstand high temperatures, and corrosive or caustic substances. Provides maximum resistance to the effects of weathering and chemicals. Stainless steel valve tags and signs are available in a variety of sizes with or without holes. Type 316 stainless steel is ideal for the highly corrosive environments of process and petrochemical facilities. Tags have blackened text making it easy to read. These durable tags have text permanently engraved and are made to withstand significant handling and abrasive environments and remain completely legible.

MS-215 Valve Tags

These high-performance tags protect the graphics from environmental conditions, making them the recommended choice for harsh environments. The tags can be secured with a variety of fasteners. Reflective and photoluminescent material are available upon request.

- Rigid material protects against abrasion
- Comes with one standard top hole
- Custom colors, sizes, and legends available

Enameled Aluminum Equipment Tags

Enameled Aluminum makes aesthetically pleasing and small equipment tags. Standard uses include in-house maintenance programs, machinery numbering, building graphics, and door signs.

- Available in both black and white enamel aluminum
- White enamel is recommended for indoor use only
- Black enamel can be used indoors/outdoors
- Custom colors, sizes, and legends available

Engraved Plastic Equipment Tags

- Engraved legend provides high contrast between letter color and background color for easy visibility
- Excellent for in-house maintenance programs, building graphics and door signs
- For indoor and outdoor applications
- Standard tags are engraved on 1/16" plastic with mounting holes or adhesive backing [1/8" thick, 3 ply also available]
- Custom colors, sizes, and legends available

MS-215 Equipment Tags

- High-performance tags provide excellent UV and chemical resistance
- Flexible or rigid material available
- Complete printing flexibility each unique tag can include multiple lines of text, equipment numbers, operation and maintenance instructions, safety precautions, or other critical asset information
- Available with adhesive or grommets
- Custom colors, sizes, and legends available

Stainless Steel Equipment Tags

Stainless Steel Equipment Tags are designed to withstand frequent wash downs or chemical cleanings, machinery that runs at high temperatures, and highly corrosive or caustic environments. This makes them an excellent choice for industries with harsh operating environments such as ammonia facilities, offshore rigs, and power generation. The black text is engraved for visibility as well as durability.

- Can be used indoors/outdoors
- Black engraved text
- Custom sizes and legends available

Accident Prevention Tags

Used to tag equipment for lockout during maintenance, convey characteristics specific to a piece of equipment, or detail maintenance instructions and operating procedures.

- Highly visible printed legends will remain effective both indoors and outdoors (24-month outdoor use recommended)
- Excellent protection against moisture and the effects of harsh chemical environments
- Each accident prevention tag is 53/4" x 3" standard size (custom sizes available upon request)

Stainless Steel Signs

Stainless Steel Signs are typically used in harsh environments. They are ideal for: nameplates on machinery that continually run at high temperatures, equipment or instrument identification in highly-corrosive or caustic environments.

- Type 316 Stainless Steel
- Standard signs have round corners and mounting holes for ease of installation (adhesive available)
- Black Text is laser engraved for visibility and durability
- Available with QR codes
- Custom sizes and legends available

MS-215 Rigid & Flexible Signs

MS-215 Signs can be used in a variety of ways including naming and numbering tanks, vessels, or pieces of equipment.

- Flexible or rigid material available
- For mounting signs on curved surfaces, we recommend the flexible construction
- Excellent outdoor life and chemical resistance
- Available with QR codes
- Multiple mounting options available including adhesive or grommets
- Custom sizes, colors, and legends available

Anodized Aluminum Signs

Anodized Aluminum Signs identify critical equipment in both indoor & outdoor environments. They can also be used to show maintenance instructions, operating procedures, characteristics of a piece of equipment, as well as warn of potential danger.

- Engraved legend provides excellent contrast
- Custom sizes, colors, and legends available

MS-300 Signs

MS-300 signs are constructed by subsurface printing on a tough, transparent, thermoplastic material. MS-300 products are suitable for labeling in an FDA compliant environment. They hold up well to radiation and chemical sterilization techniques and are ideal for medical and laboratory environments.

- Excellent chemical and water resistant
- Can be used in chemical wash down systems (CIP systems)
- Designed for indoor use

Enameled Aluminum Signs

Enameled Aluminum Signs identify critical equipment in both indoor & outdoor environments. They can also be used to show maintenance instructions, operating procedures, characteristics of a piece of equipment, as well as warn of potential danger.

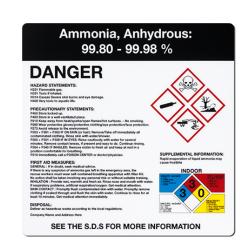

- Highly visible contrast between the legend and the background
- Comes with standard 3/16" mounting holes (adhesive available)
- Custom sizes, colors, and legends available

MS-215 GHS Signs

GHS Signs communicate information about possible health & safety situations, chemicals, and environments to facility personnel.

- Perfect for indoor or outdoor environments
- Flexible or rigid material available
- Excellent resistance to harsh environments
- Custom sizes, colors, and legends available

Engraved Plastic Signs

These bright and durable engraved plastic signs can be used for in-house maintenance programs, machinery numbering, building graphics, and door signs.

- Engraving provides high contrast between letter color and background color for easy visibility
- For indoor or outdoor applications
- Standard signs are engraved on 1/16" plastic with mounting holes or adhesive backing [1/8" thick, 3 ply is also available]
- Excellent resistance to harsh environments
- Custom sizes, colors, and legends available

Operational & Safety Signs

Operational & Safety Signs provide plant personnel with necessary information regarding hazard identification, operating procedures, and equipment identification. A variety of pre-set legends are available. Material options are either MS-215 rigid plastic or MS-900 self-adhesive material.

- High-performance MS-215 Rigid Signs are the ideal choice for outdoor and harsh environments. (Available with grommets or adhesive)
- MS-900 Self-Adhesive Signs are ideal for environments not subject to washdown chemicals or UV exposure
- Custom material and sign options available

Underground Warning Tape

Underground Warning Tape guards against potentially dangerous or costly scenarios while digging. Available in either detectable or non-detectable options.

Arrow & Banding Tape

MS-900 Self-Adhesive Arrow Tape is designed to indicate the direction of flow when used with our MS-900 Self-Adhesive Pipe Markers (page 5).

Safety Tape

Designed to alert people of potentially dangerous areas or situations. This highly visible tape keeps your personnel safe.

Underground Warning Tape

Color-coded tape guards against costly and dangerous "dig-ins".

- Designed to be buried above metallic underground piping or cables to warn excavators of utility lines
- Non-adhesive 4 mil. polyethylene tape, surface printed available in: 3" x 1000 ft. or 6" x 1000 ft. rolls
- Custom legends available

Detectable Underground Warning Tape

Detectable Underground Warning Tape locates buried non-metallic pipes before you dig.

- Printed 4.5 mil foil lets you use any standard metal detector to quickly locate underground services
- Available in: 3" x 1000 ft. roll and 6" x 1000 ft. roll
- Recommended burial depths: 3" tape Less than 24" deep; 6"– More than 24" deep
- Custom legends available

MS-900 Arc Flash Labels

MS-900 Self-Adhesive Arc Flash Labels are designed to mark switchboards, panel boards, industrial control panels, meter socket enclosures, and motor control centers that require either examination, adjustment, servicing, or maintenance while energized.

- The labels are made of premium grade material with an acrylic pressure-sensitive adhesive
- Labels can be preprinted with custom information provided by the customer. Customer must provide PDF artwork created to size.
- Labels comply with NFPA 70E, NEC Section 110 and OSHA safety requirements
- Add UV Overlaminate for outdoor use

MS-478 Self-Adhesive Arc Flash Labels

These premium labels are custom printed with the information and safety header for your specific application. All labels include a safety header and alert symbol. Other information can include incident energy (cal/cm2), hazard category, PPE required and boundary distances. These labels comply with the NFPA, NEC, and OSHA requirements.

- Made of pre-printed 2 mil. thick polyester
- Add UV Overlaminate for outdoor use
- Labels can be pre-printed with custom information provided by the customer. Customer must provide PDF artwork created to size

MS-215 Nameplates

- High-performance nameplates provide excellent UV and chemical resistance
- Flexible or rigid material available
- Complete printing flexibility each unique nameplate can include multiple lines of text, equipment number, operation and maintenance instructions, safety precautions, or other critical asset information
- Available with adhesive or grommets
- Custom colors, sizes, and legends available

480/227V S1: MSB-01-A1 S2: PDC-R1-A1

Engraved Plastic Nameplates

- Engraved legend provides high contrast between letter color and background color for easy visibility
- Excellent for in-house maintenance programs, building graphics, and door signs
- For indoor and outdoor applications
- Standard nameplates are engraved on 1/16" plastic with mounting holes or adhesive backing [1/8" thick, 3 ply also available1
- Custom colors, sizes, and legends available

Stainless Steel Nameplates

Stainless Steel Nameplates are designed to withstand frequent wash downs or chemical cleanings, machinery that runs at high temperatures, and highly corrosive or caustic environments. This makes them an excellent choice for electrical labeling in harsh operating environments such as ammonia facilities, offshore rigs, and power generation. The black text is engraved for visibility as well as durability.

- Can be used indoors and outdoors
- Black engraved text
- Custom sizes and legends available

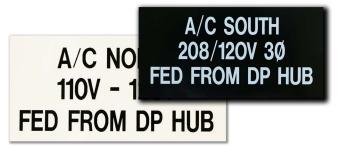

MS-478 Nameplates

MS-478 Nameplates are ideal for recording equipment information and settings with easy-to-read legends.

- Made from 2 mil. thick polyester
- Add UV Overlaminate for outdoor use
- Custom colors, sizes, and legends available

Plastic and Stainless Steel Switch & Cover Plates

Plastic and Stainless Steel Switch & Cover Plates can be engraved and color filled providing the ideal option for identifying important circuits such as those connected to emergency backup power. Customized switch plates take the mystery out of your switches by identifying critical electrical information based on your specifications.

- Multiple lines of text available
- Engraving allows for a wide variety of font choices
- Text height optional (height based on number of characters and available space)
- No minimum quantity
- For stainless steel engraved plates, our service leaves a tactile finish to the cover plates. In the event of a fire, plate identification is still legible
- We can supply plates or work with your existing ones

Rotary Switch Plates

Mark all of your controls with these switch plates for smooth, mistake-free operations. Available in all standard switch configurations. Plates are made from 1/16" engraved plastic.

MS-970 Coiled Data Conduit & Cable Markers

Ideal for data centers, MS-970 Coiled Data Conduit & Cable Markers are designed to efficiently and effectively mark, organize, and control the complex conduit found in data transmission, telecommunications, fiber optics, CATV, and electrical systems.

- Semi-rigid coiled markers wrap completely around conduit and remain secure without the use of adhesives
- They can be produced with or without text and with multiple color bands in a variety of custom widths
- Available in a wide variety of colors and color combinations to accommodate any project specification

Style	Conduit Diameter	Marker Width	Pieces per Stick
Α	1/2" - 1"	2"	4
В	11/8" - 21/4"	2"	4
C	23/8" - 31/4"	2"	6
D	33/8" - 41/2"	2"	6
Е	45/8" - 57/8"	2"	6

MS-995 Coiled Data Conduit & Cable Markers

MS-995 Coiled Data Conduit & Cable Markers are an excellent choice in harsh indoor or outdoor environments. These coils use color and/or text to communicate important information regarding service, end-user, or origin of conduit.

- Coils are sized to fit completely around the circumference of the conduit and adhere to themselves
- Constructed of a polyester film with UV Overlaminate, these markers provide maximum protection from UV and chemical exposure

Style	Conduit Diameter	Marker Width
A	Up to 1"	2"
В	1" - 2"	2"
D	21/2" - 4"	2"
E	41/2" - 6"	2"

Stainless Steel Conduit & Cable Markers

Engraved Type 316 Stainless Steel Conduit & Cable markers are designed for the highly corrosive environments of pharmaceutical manufacturing, petrochemical facilities as well as other harsh environments. Cable markers are strapped on to cable using stainless steel or nylon strapping.

MS-900 Self-Adhesive Conduit & Cable Markers

MS-900 Self-Adhesive Conduit & Cable Markers are designed for labeling conduit, panel boxes, circuit breakers, and connections to equipment.

- Black text on orange labels provide a highly visible warning of potential electrical hazards
- MS-900 self-adhesive material insures a durable, long lasting indoor marker
- Custom legends and colors available
- NOTE: 1/2" x 21/2" labels are supplied/priced ten markers per sheet

Self-Laminating Wire MarkersSelf-laminating wrap around wire and terminal markers

Self-laminating wrap around wire and terminal markers are premium outdoor grade clear material with an acrylic pressure-sensitive adhesive. They are used to provide branch circuit or feeder numbers for power and lighting circuits and system color-coding.

- Can be pre-printed in custom colors including clear
- Text height based on wire size
- Markers come in sheets
- Quantity of markers per sheet dependent on size

Heat Shrink Wire Markers

Wire and terminal markers are designed to provide branch circuit or feeder numbers for power and lighting circuits and system color-coding.

- Installation can be done with any heat gun
- Standard marker color is black on white
- Custom colors and legends available

MSI-3108-015

MS-970 Coiled Conduit & Cable Markers

MS-970 Coiled Conduit & Cable Markers are designed to eliminate the confusion of tightly packed conduit and cable. The coiled design allows them to quickly snap around conduit or cable, clearly identifying voltages or functions. The durable material allows for maximum life in an indoor environment.

- Indoor use only
- No adhesive necessary

Style	Diameter
Α	1/2" - 1"
В	11/8" - 21/4"
C	23/8" - 31/4"
D	33/8" - 41/2"
E	45/8" - 57/8"
Use this chart for	or MS-970 Part #'s

ORDER MS-970 Pipe Markers

- Determine the four-digit part number for each legend
- Use the marker style table above to determine appropriate size and add corresponding letter to end of part #
- EXAMPLE: The marker "110 Volts" for 2" diameter would be part number 9780B
- Contact us for custom markers

Electrical Identification

product offerings

MS-264 Engraved Plastic Cable Markers

Ideal for labeling electrical cables in control panels, these markers display engraved legends that are easily legible. They are designed with a matte finish, beveled edges, and notches for secure installation using standard 50lb cable ties.

- Engraved plastic material has excellent resistance to harsh environments
- Can replace phenolic material
- Custom sizes, colors, and legends available
- Electrically non-conductive engraved plastic available

MS-215 Cable Tray Markers

These cable tray markers are constructed of printed graphics sealed between layers of chemical resistant plastic. The durable material provides excellent resistance to harsh environments.

- Flexible or rigid material available
- Excellent resistance to UV exposure, abrasion, water, and harsh
- Flexible material is able to be mounted on curved surfaces
- Custom sizes, colors, and legends available

MS-478 Cable Tray Markers

MS-478 Cable Tray Markers are the ideal solution for identifying smooth sided cable trays. Add UV Overlaminate for maximum protection against UV exposure and chemicals.

- Self-adhesive
- Easy installation with minimal surface preparation
- Custom sizes, colors, and legends available

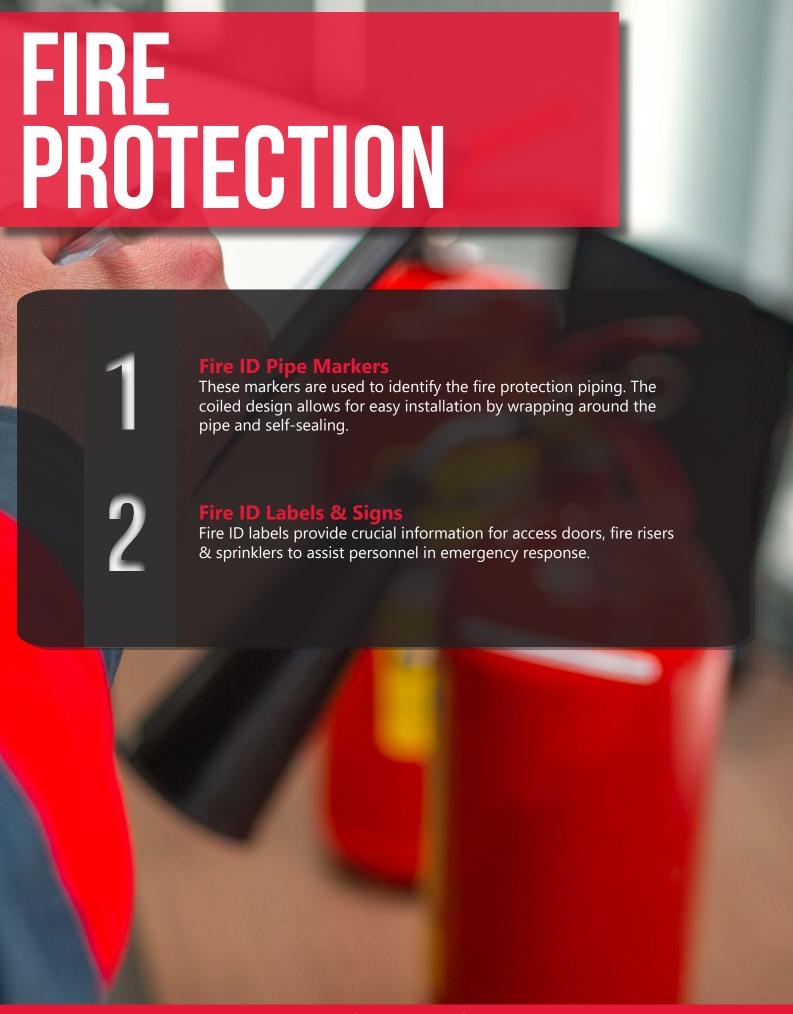

MS-900 Self-Adhesive Cable Tray Markers

These markers are designed to allow you to label and identify junctions, branches, and trays leading to equipment. The self-adhesive material conforms to the shape of your tray and is easily applied with minimal preparation. Add UV Overlaminate for maximum protection against UV exposure and chemicals.

- Excellent option for indoor labeling
- Custom sizes, colors, and legends available

CAB-015-200

AL3-050-215

MS-970 Coiled Pipe Markers

MS-970 Coiled Pipe Markers are constructed of semi-rigid material and are designed to identify piping in a wide variety of environments, especially in applications where the pipe surface is rough, oily, or wet. They stay in place on pipes due to the memory of the coiling process and do not rely on adhesives. Complies with ASME A13.1.

For pipe 6" in diameter and larger, use nylon straps to secure the plastic marker around the pipe (straps included).

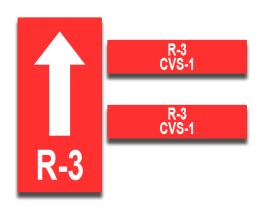

Pipe Diameter	Marker Style	Marker Width	Character Height	Marker Type
1/4" - 3/8"	TM	3"	1/4"	coiled
1/2" - 1"	Α	8"	1/2"	coiled
11/8" - 21/4"	В	8"	3/4"	coiled

6" - 7%"	F	12"	11/4"	strap-on
8" - 10"	G	24"	21/2"	strap-on
over 10"	Н	34"	31/2"	strap-on

Legend	Color	Part #
FIRE PROTECTION WATER	RED	9826
FIRE SPRINKLER WATER	RED	9736

MS-900 Self-Adhesive Fire Riser & Sprinkler Labels

- Identifies each riser to isolate for testing/maintenance
- Highly visible white on red printing provides quick identification for fire departments or in-house personnel
- Mark branch lines from control valve to isolate branch and eliminate the need to shut down the entire main header
- Self-adhesive

Engraved Plastic Access Door Signs

- Engraving provides high contrast between letter color and background color for easy visibility
- Standard tags are engraved on 1/16" plastic with mounting holes or adhesive backing
- Custom sizes, colors, and legends available

SPRINKLER VALVE

MS-900 Self-Adhesive Fire Damper & Access Door Labels

Use MS-900 labels to identify the fire protection piping and fire damper access doors.

- Self-adhesive labels simply adhere to the surface with minimal preparation
- Labels can be customized to designate the specific system or zone
- Sizes and colors comply with the NFPA Standard

SOLAR

Solar Placards are designed to withstand the harshest environments. Available in engraved plastic, MS-900 self-adhesive, or MS-215 material, they can be completely customized to meet project specifications.

Used to map out the equipment and layout of a solar site. These highly customized sitemaps are made with the exact specifications provided to us.

Used for labeling wires and terminals. These are an excellent choice for color-coding, identifying, and differentiating wires on a site.

Available in multiple materials, our Solar Labels & Signs have a variety of pre-set or custom options. From job site information to warnings, these signs and labels are an excellent choice for any photovoltaic labeling.

MS-215 Rigid Solar Placards

MS-215 Rigid Solar Placards are the ideal choice for photovoltaic labeling on your next solar project. They are constructed of printed graphics sealed between layers of chemical resistant plastic. The top layer is a durable thermoplastic that provides excellent resistance to process chemicals, protection from abrasion, and functions as a UV filter to prevent fading of printing and graphics.

- Excellent outdoor life and chemical resistance
- Available with QR codes
- Adhesive mounting
- Custom sizes, colors, and legends available

MS-215 Rigid "Warning" Solar Placards

MS-215 Rigid "Warning" Solar Placards are the ideal choice for photovoltaic labeling on your next solar project. They are constructed of printed graphics sealed between layers of chemical resistant plastic. The top layer is a durable thermoplastic that provides excellent resistance to process chemicals, protection from high impact, and functions as a UV filter to prevent fading of printing and graphics.

• Fixed "Warning" header

Engraved Plastic Solar Placards

These durable placards are an excellent choice for PV labeling. The engraved legend provides excellent contrast against the background of the placard. Placards come with adhesive backing, and surface preparation is recommended before application.

- Excellent outdoor life and abrasion resistance
- Adhesive mounting
- Custom sizes, colors, and legends available

PHOTOVOLTAIC SYSTEM **EQUIPPED WITH RAPID SHUTDOWN**

ELECTRICAL SHOCK HAZARD

THE DIRECT CURRENT CIRCUIT CONDUCTORS OF THIS PHOTOVOLTAIC POWER SYSTEM
ARE UNGROUNDED BUT MAY BE ENERGIZED
WITH RESPECT TO GROUND DUE TO

Engraved Plastic "Warning" Solar Placards

These durable placards are an excellent choice for PV labeling. The engraved legend provides excellent contrast against the background of the sign. Placards can be used indoor or outdoor and come with adhesive backing. Surface preparation is recommended before application.

Fixed "Warning" header

ELECTRIC SHOCK HAZARD. DO NOT TOUCH TERMINALS. TERMINALS ON BOTH THE LINE ND LOAD SIDES MAY BE ENERGIZED IN THE OPEN POSITION.

MS-215 Solar Sitemaps

Used to map out the equipment and layout of a solar site. These highly customizable sitemaps are extremely durable and can be made to exact specifications.

- Excellent outdoor life and chemical resistance
- Available with QR codes
- Manufactured with a customer provided PDF
- Custom sizes and colors available

Self-Laminating Solar Wire Markers

Self-laminating wrap around wire and terminal markers are made from premium outdoor grade clear material with an acrylic pressure-sensitive adhesive. They are used to provide branch circuit or feeder numbers for power and lighting circuits and system color-coding.

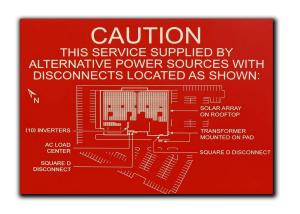

- Can be pre-printed in custom colors including clear
- Text height based on wire size
- Markers come in sheets
- Quantity of markers per sheet depends on size

12/1C (+)

Engraved Plastic Solar Sitemaps

Used to map out the equipment and layout of a solar site. These highly customizable sitemaps are extremely durable and can be made to exact specifications. The engraved design provides a durable option for long-term use.

- Engraved legend provides excellent contrast against the background of the sitemap
- Excellent outdoor life and abrasion resistance
- Custom sizes and colors available

Heat Shrink Solar Wire Markers

Wire and terminal markers are designed to provide branch circuit or feeder numbers for power and lighting circuits and system color-coding.

- Installation can be done with any heat gun
- Standard marker color is black on white
- Custom colors and legends available

MSI-3108-015

MS-900 Self-Adhesive Solar Sitemaps

Used to map out the equipment and layout of a solar site. These highly customizable sitemaps are extremely durable and can be made to exact specifications.

- UV Overlaminate included for outdoor use
- Excellent resistance to UV exposure
- Easy installation with minimal surface preparation
- Custom sizes and colors available

See our full **Solor Energy Identification** product offerings

SOLAR LABELS & SIGNS

MS-900 Self-Adhesive Solar Labels

MS-900 Self-Adhesive Solar Labels with UV Overlaminate are an excellent choice for photovoltaic labeling. The self-adhesive design allows for easy installation with limited surface preparation, the UV Overlaminate gives great outdoor durability and extended life.

- Self-adhesive
- UV Overlaminate included for outdoor durability
- Custom size, colors, and legends available
- NEC compliant

WARNING: PHOTOVOLTAIC POWER SOURCE

MS-900 "Warning" Self-Adhesive Solar Labels

Available in a variety of pre-set or custom options with a fixed "Warning" header. They can be easily installed with minimal surface preparation. Labels come with standard UV Overlaminate, protecting them from UV exposure and making them a durable option for outdoor labeling needs.

- Self-adhesive
- UV Overlaminate included
- Variety of pre-set legends
- Custom size, colors, and legends available
- NEC compliant

ELECTRICAL SHOCK HAZARD

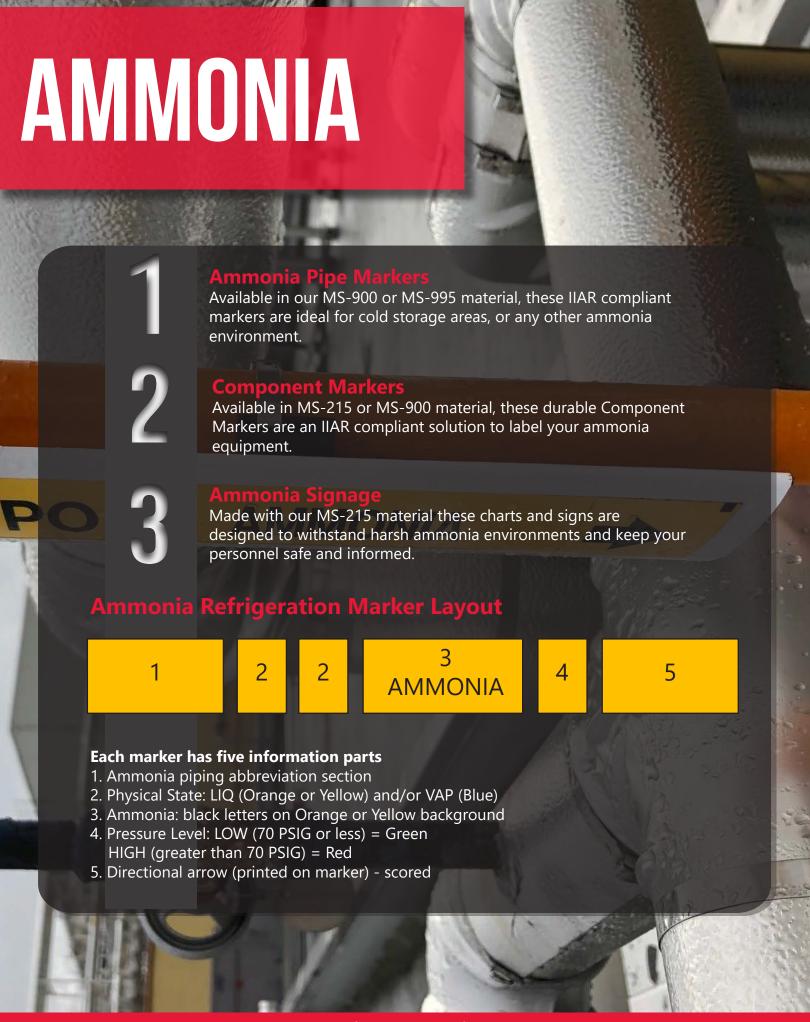

THE DC CONDUCTORS OF THIS PHOTOVOLTAIC SYSTEM ARE UNGROUNDED AND MAY BE ENERGIZED

Aluminum Solar Signs

These custom signs are ideal for keeping a job site safe and informed. Each sign comes coated with our high-performance proprietary and environmentally friendly Rugged-Kote surface treatment, making them a capable outdoor sign. Signs come standard with 4 corner holes, allowing them to be easily attached to fences or gates with a fastener. Other mounting options available upon request.

- Rugged-Kote included on all signs
- Excellent resistance to UV exposure
- Easy installation
- Custom size, colors, and legends available

MS-995 Coiled & Carrier Ammonia Markers

These maximum performance pipe markers can stand up to high heat, harsh chemicals, and direct exposure to sunlight, which makes them an excellent choice for an ammonia environment.

- · Construction provides proven protection from effects of direct sunlight
- Pipe markers can be removed or reinstalled
- Pre-coiled pipe markers install easily by wrapping completely around pipe and affixing to themselves [not the pipe surface] with a sealing strip, eliminating the need for surface preparation
- Available in Yellow and Safety Orange per the revised IIAR Bulletin 114
- The MF, MJ, and M markers consist of a legend label applied to a durable carrier. Markers are attached to larger diameter pipes using stainless steel straps. They are designed for easy installation and high visibility on rooftop or elevated piping. Locking tool for coil straps available for purchase (see accessories & mounting options section).

Outside Diameter (Including Insulation)	Marker Style	Marker Width (around pipe)	Marker Length (along pipe)
Up to 11/4"	Α	5"	8"
3/4" - 2"	В	9"	8"
2" - 21/2"	С	12"	12"
23/4" - 43/4"	D	17"	12"
5" - 71/8"	Е	26"	12"

Outside Diameter (Including Insulation)	Marker Style	Carrier Size	Label Height
3/4" - 17/8"	MJ	2.2" x 10"	11/2" x 9"
2" - 71/8"	MF	31/2" x 17"	21/2" x 16"
8" and up	M	5" x 33"	4½" x 32"

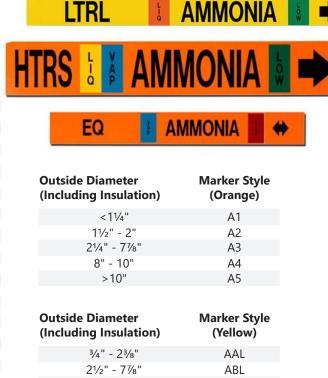

^{*}Use this chart for carrier markers

MS-900 Self-Adhesive Ammonia Pipe Markers

The premium self-adhesive material allows these markers to be easily installed with minimal surface preparation. The scored arrow conveniently eliminates the need to determine direction of flow prior to ordering. Follows the revised IIAR Bulletin 114.

- Add UV Overlaminate for outdoor use
- Custom legends, sizes, and bands available

MS-900 Self-Adhesive Component Markers

IIAR compliant component markers include black letters on a yellow or orange background with a high-or low-pressure band.

- Add UV Overlaminate for outdoor use
- Easy installation with minimal surface preparation

ACL

ADL

MS-215 Component Markers

IIAR compliant component markers include black letters on a yellow or orange background with a high or low pressure band. Available in flexible or rigid material with adhesive or magnetic backing.

- Excellent resistance to: UV exposure, chemicals, water, and abrasion
- Can be used on a variety of surfaces including curved
- Custom sizes and legends available

MS-215 Rigid Auxiliary/Principal Door Signs Auxiliary/Principal Door Signs are placed at all entrances to machinery rooms. These

signs are specifically designed to provide a clear hazard warning for employees in food processing plants, mills, and cold storage facilities.

- Designed with MS-215 rigid material to withstand harsh environments
- Follow ANSI/IIAR 2-2008 standards (including Addendum A) for the identification of piping, valves, and components
- Custom sizes, colors, and legends available

MS-215 Rigid Ammonia Wall Charts

These PSM approved ammonia wall charts can be used as authorized by installation and repair contractors. They convey information regarding emergency contacts, shut down procedures, safety warnings, and system changes.

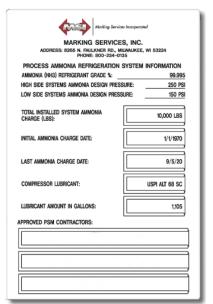

- Custom sliders can be requested for frequent text and content changes
- Designed with MS-215 rigid material to withstand harsh environments
- Multiple mounting options available
- Orange and yellow options available

MS-215 Rigid Refrigeration Contractor Signs PSM approved contractor signs are used to convey contractor contact info,

chemicals, and other information like design pressures and total system charge in lbs. The signs are placed directly on the containers or areas where potentially dangerous chemicals are used.

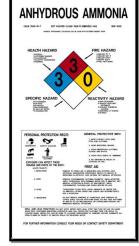

- Custom sliders can be requested for frequent text and content changes
- Designed with MS-215 rigid material to withstand harsh environments
- Multiple mounting options available

MS-215 Ammonia Tank & Vessel Signs

These signs are designed to name and number each tank and vessel. Available in both rigid and flexible materials. The flexible material easily conforms to curved surfaces and is mounted using our heavy-duty adhesive.

- MS-215 material provides excellent resistance to harsh environments
- Multiple mounting options available
- Customizable

MARINE & OFFSHORE

Pipe Marker

Designed to withstand direct sunlight, saltwater, and chemicals, our premium coiled and carrier pipe markers are the ideal choice for a marine & offshore environment.

These signs and boards provide critical information regarding hazard identification, operating procedures, equipment identification, and evacuation & escape procedures.

IMO & Egress Signs

Specifies important safety and operational information to on-board personnel in a direct manner to provide faster user response time. Our IMO & Egress Signs are photoluminescent and provide critical information for personnel in the event of an emergency where low-light visibility is needed.

Equipment Signs & Tags

Equipment Signs & Tags are an integral part of any safety system that aims to reduce the risk related to spills, accidents, and injuries from improper use within the installation.

Specializing in regulatory compliance solutions for global standards (US Coast Guard, NORSOK, Mexico NORMS, Brazil NR, etc.), we have established a standardized signage system that communicates effective safety information to people who travel and work on-board ships and other marine installations.

We have the capability to do offshore gap analysis surveys to ensure that your installation is operationally ready.

MS-995 Coiled & Carrier Marine & Offshore Pipe Markers

MS-995 Pipe Markers are maximum performance pipe markers that stand up to high heat, harsh chemicals, and direct exposure to sunlight, which makes them an excellent choice for a marine & offshore environment.

- Specifies content, to and from information, and directional flow
- Color-coded for easy identification
- Construction provides proven protection from effects of direct sunlight
- Service temperature range from -40° F to 250° F
- Eliminates need for pipe surface preparation
- Can be removed and reinstalled
- High temperature and oversized markers are also available
- 5+ years expected outdoor durability

MS-995 Pre-Coiled Pipe Marker

MS-995 Pre-Coiled Pipe Markers install easily by wrapping completely around pipe and affixing to themselves [not the pipe surface] with a sealing strip. Recommended use on insulated pipes.

MS-995 Carrier Pipe Marker

These markers consist of a legend label applied to a durable carrier. Markers are attached to larger diameter pipes using coated stainless steel straps (see accessories & mounting options section). They are designed for easy installation and high visibility on elevated piping. Recommended use on non-insulated pipes.

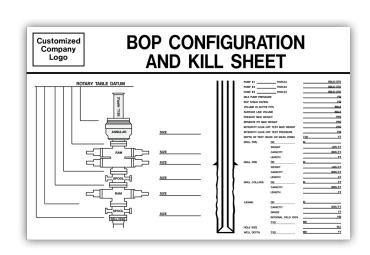

Safety Signs and Operation Boards are imperative to convey mandatory warning and prohibition messages to ensure safe work practices. Designed with MS-215R, MS-215F, or Aluminum Composite material, they can be magnetic backed, magnetic receptive, or dry erase. We offer operation board packages specific for jack up, drillshops, semi subs, etc.

- Signs can be customized with logo or specific data
- Indoor or outdoor usage
- Material can vary
- Custom sizes available
- Dual language sliders/solutions available

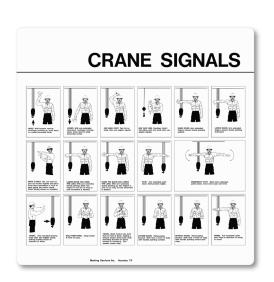

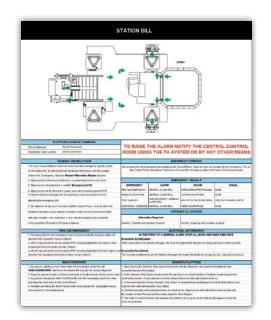

Compartment Boards

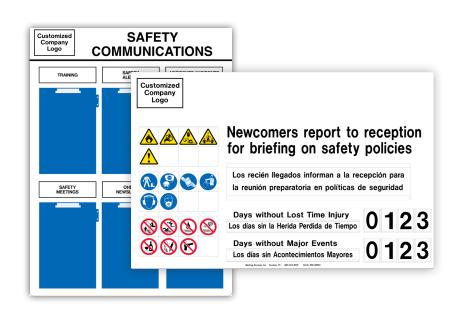

Instructional Boards

Regulatory Signs

Safety Signs

MS-215 Photoluminescent IMO & Egress Signs

Based on Fire Control and Life Saving Plans, we will develop the bill of materials to ensure your facility meets regulatory requirements. Designed with our MS-215 photoluminescent material, these durable signs are used to ensure visibility in the case of a power outage.

- Comply with IMO/SOLAS requirements
- Excellent outdoor life and chemical resistance

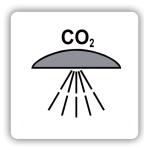

See our full Marine & Offshore Identification product offerings

MS-215 Rigid & Flexible Equipment Signs

MS-215 Signs can be used in a variety of ways including naming and numbering tanks, vessels, or pieces of equipment.

- Excellent outdoor life and chemical resistance
- Available with QR codes
- Multiple mounting options available including adhesive, grommets, or strapping
- Custom sizes, colors, and legends available

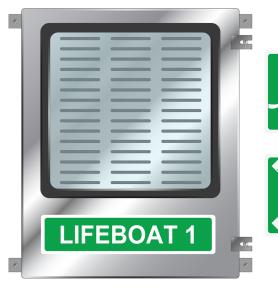

MS-215 Carrier Equipment TagsExcellent outdoor life and chemical resistance

- Available with QR codes
- Designed for easy installation and high visibility
- Curved design is ideal for utilization on curved surfaces
- Custom sizes, colors, and legends available
- See page 16 for stainless steel, MS-215, and other tag options

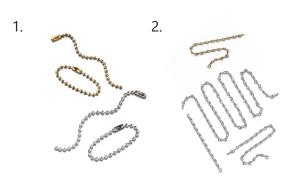

Stainless Steel T-Card Box with Muster Board

Located at lifeboat and life raft muster stations, designed to provide assembly points and designate personnel to muster in case of an emergency.
