LABELING PRODUCTS & SERVICES

2023 Catalog

MSI

Marking Services Incorporated®

MSI CORE PHILOSOPHY

Logical, thorough, and consistent communication is imperative for the safe and reliable operation of commercial and process facilities. At MSI, we want to help you establish guidelines and specifications to communicate meaningful information to facility personnel in support of safe operations, emergency response, and compliance with regulatory requirements through an effective and durable plant labeling system. We want your facility to be set up with "best practices" for plant labeling products, services, and instant access to critical asset information using mobile technology.

Durable labeling installed properly and effectively is intended to support process safety management and uninterrupted production by providing critical information to plant personnel in a standardized and consistent manner. The objectives of asset management and identification from MSI are designed to deliver the following benefits:

1) Process Safety Management (PSM):
PSM is an integral part of safe, reliable, and effective plant operations. The benefits of enhancing a PSM program with respect to labeling include:
- Enhanced facility safety & productivity
- Improved operator training
- Assistance for maintenance personnel by providing instant access to asset information like operation and maintenance manuals and work procedures direct at the asset
- Reduced risk of equipment downtime
- Aid & support for emergency response personnel

2) Hazard Reduction and the Prevention of Human Error:
A comprehensive and effective labeling program contributes to the effective functioning of process operations and limits the potential for downtime or injuries due to operations or maintenance errors.

3) Uniformity of Labeling Nomenclature:
A labeling program that is standardized and consistent contributes to the flow of information and feedback among all affected departments including: operations, maintenance, safety, environmental, quality, administration, supply, and management. Information flow regarding piping, equipment, valves, instrumentation, and hazards shall be understood by all parties because of the standard definitions and specific identification included on each label, sign, or tag.

4) Regulatory Compliance:
Industries subject to government oversight or compliance testing can store critical data directly at the asset location and retrieve this data during inspections. Using mobile technology, critical information can be retrieved at the asset without having to dig for information in engineering libraries.

CONTRACTOR SERVICES

Designed To Save You Time & Reduce Your In-Place Costs

Ensures Accuracy   **Saves Money**   **Saves Time**

MATERIAL TAKE-OFF SERVICE

Our take-off service for identification lowers in-place costs and provides added value for our customers. This service is designed for a wide range of projects in data centers, EVB healthcare, government, public safety, medical, education, and telecommunications facilities. Working with us from the beginning saves time you would otherwise spend creating a list of identification products. As a bonus, we will prepare any and all labeling submittal documents and address any RFI's to meet your requirements.

1.

2.

3.

4. changes and update proposal, marked up drawings, and bill of materials.

5. We manufacture your high-quality custom identification in-house.

6. We then package your order by drawing, area, system, etc. making the sorting and installation process more efficient.

PACK-BY SERVICE

We offer special packaging services for your identification order. This eliminates labor your workers would normally spend sorting identification labels on-site. Instead, they can take the boxes to the designated sections and begin installation.

PACK-BY BINDERS

Our Pack-By Service can also include Pack-By Binders. With Pack-By Binders, all your electrical labels will arrive in a binder that has been pre-sorted to your specifications prior to delivery. See page 29 for more information.
OWNER SERVICES

Providing Value With Unmatched Turnkey Services

Our Owner Services provide you with a single source for all of your facility identification needs. By organizing the elements of each facility's asset information, we standardize labeling thereby promoting safer work conditions. We help you manage your facilities better, achieving long-term cost savings associated with faster, more efficient plant commission, start-ups, and improved operator training. We have expertise in streamlining labeling and providing custom labeling solutions for major construction projects or existing facilities.

TECHNICAL DRAFTING SERVICES

We focus on the development of accurate as-built drafting products and services for any industry. From P&IDs to facility site plans, our drawings visually communicate valuable asset information and are an essential tool for engineering, maintenance, and health & safety personnel. In the absence of accessible quality information, we utilize 3D laser scanning technology to collect data about a facility's operating environment to use in the development of accurate P&IDs and labeling.

INSTALLATION SERVICES
Our turnkey installation process systematically installs permanent asset identification without you devoting personnel time or direct supervision. Our crews are experts at installing identification in a timely, consistent, and safe manner.

ENGINEERING
Our staff of full-time professionals is experienced in the intricacies of developing and implementing a total identification system. Our engineering uses a comprehensive approach to creating an efficient identification program for your facility.

PIPE MARKERS

AIM & ATLAS MOBILE TECHNOLOGY

TAKE ASSET IDENTIFICATION AND PROCEDURE EXECUTION TO THE NEXT LEVEL

AIM Mobile Technology is a user-friendly asset and document management application built for safer and more efficient operations. It allows service technicians and auditors the ability to upload documents to a secure asset database and access them by simply scanning the associated QR code in the field.

ATLAS is a mobile procedure management application integrated with AIM, it's designed to make your operations safer & more efficient. Users are able to easily scan assets in the field with a mobile device and bring up step-by-step visual procedures.
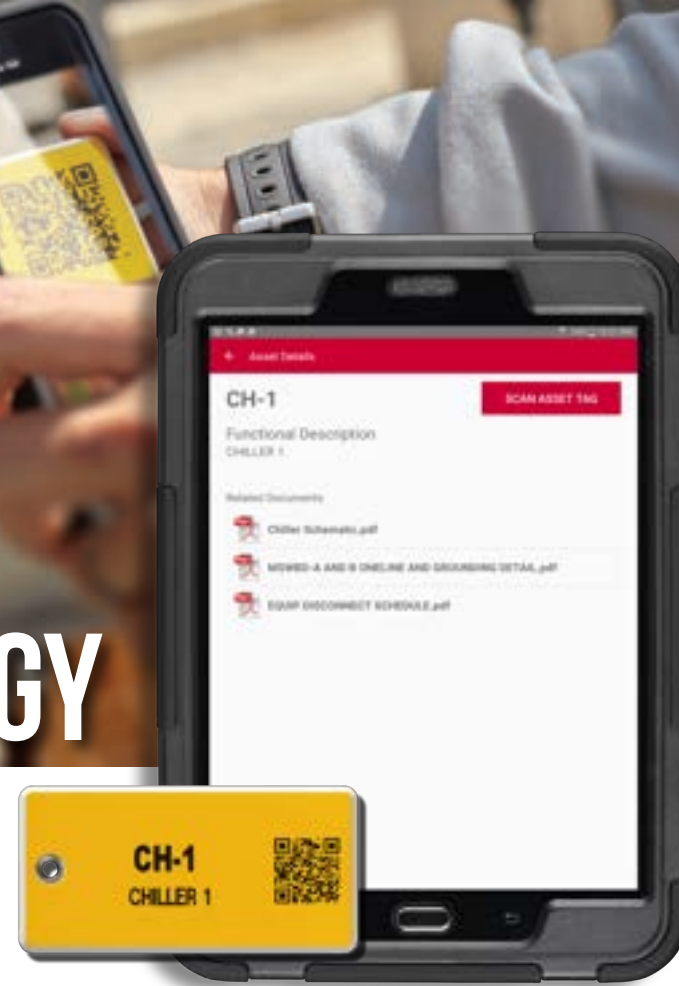

COMMON ITEMS INCLUDED IN AIM DATABASE:

- Customized AIM Forms
- Work Orders
- Preventative Maintenance Orders
- Inspection Checklists
- Maintenance & Service Manuals
- Schematics
- Drawings
- Commissioning Reports

BENEFITS OF ATLAS:

- Promotes Effective Training
- Digitizes Procedures
- Mitigates User Errors
- Increases Efficiency
- Location & Asset Confirmation
- Increases Accuracy

1. Coiled Pipe Markers

These pipe markers are built with a pre-coiled design, allowing for easy installation by wrapping around the pipe and self-sealing. They can be removed and reinstalled for easy access to the pipe surface.

2. Self-Adhesive Pipe Markers

Printed on premium quality, fade-resistant material, our Self-Adhesive Pipe Markers are used to address multiple labeling needs from line service designations to system color-coding.

3. Duct Markers

Printed on a highly visible self-adhesive material, our Duct Markers are used to identify airflow/equipment in a ductwork system. Our Plenum-Rated Duct Markers are used in plenums to help prevent the spread of smoke & gases in the event of a fire.

4. Carrier Pipe Markers

MS-995 Carrier Pipe Markers are designed to withstand harsh conditions in indoor and outdoor piping environments. The curved design enhances visibility and minimizes the impact of direct sunlight.

Order MS-995 Coiled Pipe Markers
- Determine the four-digit part number for each legend
- Use the marker style table at the bottom right corner of **page 2** to determine size of marker desired
- Example: The marker "ACID" for a 2" diameter pipe would be part number 1202B
- Contact us for custom markers

MS-995 Coiled Pipe Markers

MS-995 Coiled Pipe Markers are manufactured for extended life in harsh surroundings. They are tested and produced to withstand prolonged exposure to direct sunlight, salt water, harsh process chemicals, acids, caustics, and hydrocarbons.

- Pre-coiled markers install easily by wrapping entirely around the pipe and self-sealing with a lockdown strip
- Installation can be on either bare or insulated pipe and requires no surface preparation for attachment since they bond to themselves, not the pipe surface
- Can be removed and reinstalled
- ANSI/ASME A13.1-1996 colors available upon request

Custom MS-995 Coiled Pipe Markers

Custom pipe markers are available to meet facility-specific needs for color, pipe diameter, and information (including from/to, P&ID numbers, line numbers, pipe contents, dual flow direction arrows, etc.).

Styles Available

MS-995 Coiled Pipe Markers are available in nine standard sizes to fit pipes with overall outside diameters of ⅜" through 18" (including insulation thickness). For piping 8" and larger, the 4" x 32" (style M) marker is permanently laminated to a chemical and weather resistant carrier (see **page 12**).

*MS-995 markers comply with ANSI/ASME A13.1, except styles J, K, L & N which do not comply with the ANSI/ASME A13.1 standard regarding marker size and letter height.

MS-970 Coiled Pipe Markers

MS-970 Coiled Pipe Markers are constructed of semi-rigid material and are designed to identify piping in a wide variety of environments, especially in applications where the pipe surface is rough, oily, or wet. They stay in place on pipes due to the memory of the coiling process, and therefore do not rely on adhesives. Complies with ANSI/ASME A13.1.

Features

- Indoor use only
- Coiled construction quickly snaps around pipes
- No pipe surface preparation needed
- Self-locking adhesive strip keeps marker in place even on vertical pipes
- Plastic nylon straps are included to secure marker in place on pipes 6″ or larger
- Can be removed and reused
- Flow direction arrows are printed on each marker
- ANSI/ASME A13.1-1996 colors available upon request

Custom MS-970 Coiled Pipe Markers

- No setup charges or minimum order quantity
- Include any combination of the following items to make up the marker legend: pipe contents, origin (from) and destination (to), line numbers, equipment numbers, and flow direction
- Custom sizes and colors available

*Style F Markers include two 36" nylon straps
*Style G Markers include three 36" nylon straps
*Style H Markers include three 48" nylon straps

*Additional straps available if needed, see mounting options on **page 60.**

Pipe Diameter (Including Insulation)	Marker Style	Marker Width	Character Height	Marker Type
⅜" - ½"	TM	3"	¼"	Coiled
½" - 1"	A	8"	½"	Coiled
1⅛" - 2¼"	B	8"	¾"	Coiled
2⅜" - 3¼"	C	12"	1¼"	Coiled
3⅜" - 4½"	D	12"	1¼"	Coiled
4⅝" - 5⅞"	E	12"	1¼"	Coiled
6" - 7⅞"	*F	12"	1¼"	Strap-On
8" - 10"	*G	24"	2½"	Strap-On
Over 10"	*H	32"	3½"	Strap-On

Order MS-970 Coiled Pipe Markers

- Determine the four-digit part number for each legend
- Use the marker style table at the bottom right corner of **page 4** to determine size of marker desired
- Example: The marker "ACID" for a 2" diameter pipe would be part number 9800B
- Contact us for custom markers

MS-900 Self-Adhesive Pipe Markers

For line service identification and system color-coding.

- Complies with ANSI/ASME A13.1
- Printed on premium quality, fade-resistant material
- Adheres well to pipe and insulation with only limited surface preparation
- Markers can be used with arrow tape or separate arrow markers to indicate flow direction (see **page 15** for arrow tape)
- Add UV Overlaminate for outdoor use

Custom MS-900 Self-Adhesive Pipe Markers

- No set-up charges or minimum quantity requirement
- Custom colors available
- ANSI/ASME A13.1-1996 colors available upon request

MS-900 Self-Adhesive Economy Pipe Markers

Printed on premium quality fade-resistant material and used to provide line service designations, system color-coding, or various labeling needs. Economy markers come standard in sheet form, which is supplied with 5 arrows & markers per sheet, with no minimum order requirements.

- Roll form is also available, see below for more information
- Markers are 2" x 9" and the directional arrows are 2" x 4½". Letter/arrow height is 1¼"
- Scores between markers and arrows ensure easy handling and application
- Use separately or with banding tape for complete low-cost marking system

Roll form is supplied in increments of 6 rolls of 50 identical markers and flow directional arrows, with a minimum of 6 rolls per text/background combination.

MS-900 Self-Adhesive Medical Gas Markers

MS-900 Self-Adhesive Medical Gas Markers are an economical and easy way to mark tubing or piping less than ¾" in diameter. Manufactured per NFPA-99C; CGA C9-2002.

- Legend and flow direction arrows are combined on one pressure-sensitive marker
- Markers are 3" x 3″ and wrap completely around the pipe for easy installation
- 4" x 4" & 6" x 6" also available upon request
- Supplied in rolls of 100, or individual pieces for ordering the exact quantity of labels you need

MS-900 Self-Adhesive Small-Bore Markers

MS-900 Self-Adhesive Small-Bore Markers are an economical and easy way to mark tubing or piping less than 1" in diameter. Our tubing and small-bore markers are suitable for line marking identification and system color-coding.

- Legend and flow direction arrows are combined on one pressure-sensitive marker
- Supplied in rolls of 100, or individual pieces for ordering the exact quantity of labels you need
- ANSI/ASME A13.1-1996 colors available upon request

MS-900 Self-Adhesive Mini Pipe Markers

These Self-Adhesive Mini Pipe Markers (style "T") are great for labeling ¼" - ¾" process lines, tool connections, or utility piping. Our Mini Pipe Markers are suitable for line marking identification and system color-coding.

- Identify piping carrying chemicals and gases used in the production of semi-conductors and components
- Custom legends, chemical abbreviations, and point of connection labels are available
- Style T markers are ½" x 2½" and sold 10 labels per sheet

MS-900 Self-Adhesive Duct Markers with Attached Scored Arrow

Used to identify the air flow and equipment in a ductwork system.

- Highly visible color-coded labels make it easy to differentiate between different systems
- Scored arrow markers designate direction of flow
- Markers can be customized to designate the specific system or equipment of origin

MS-900 Self-Adhesive Plenum Duct Markers

Plenum Duct Markers are metalized self-adhesive labels tested to meet the requirements of E-84-03 "Standard Test Method" for surface burning characteristics of building materials.

- Available with black text on metallic grey background
- Designed for use in plenums to help prevent the spread of smoke and gases in the event of a fire
- Custom colors available

MS-995 Curved Carrier Pipe Markers

MS-995 Curved Carrier Pipe Markers are specifically created to withstand harsh conditions in both indoor and outdoor piping environments. These markers consist of a curved, rigid, strap-on carrier with a durable label affixed. Additionally, the carrier is equipped with two slotted nylon feet to prevent direct contact between carrier and piping. The curved design enhances visibility and minimizes the impact of direct sunlight.

May be used in all applications of piping with ¾" and greater outside diameter including insulation. A coated stainless steel banding is recommended.

The foot assembly may be strapped to the pipe prior to attaching the carrier, or the carrier assembly may be strapped as a unit to the pipe, allowing for maximum installation flexibility.

- Designed & tested to withstand up to 150 mph wind velocity for one hour
- Complies with ANSI/ASME A13.1
- See mounting options on **page 60**

Pipe Diameter	Part #	Marker Size	Carrier Size
¾" - 1⅞"	CAR995MJ	1½" x 9"	2.2" x 10"
2" - 7⅞"	CAR995MF	2¼" x 16"	3½" x 17"
8" or greater	CAR995M	4" x 32"	5" x 33"

MS-995 High-Temperature Stainless Steel Markers

MS-995 Stainless Steel Pipe Markers are for use on piping that has a surface temperature range of up to 350°F.

- Markers consist of durable label mechanically applied to a flat stainless steel carrier
- Includes stand-off brackets with heat-reducing spacers to hold the printed pipe marker away from the heat of the pipe's surface
- See mounting options on **page 60**

Metal Stencils

Pre-cut stencils are available for an economical way to mark piping. A variety of letter heights are available to comply with ANSI/ASME A13.1 recommendations.

- Reusable
- Durable metal material
- Customizable text

Plastic Stencils

- Reusable
- Customizable text
- Available in multiple sizes

12 oz. Spray Stencil Ink

- Permanent, quick-drying, weather resistant ink
- Provides high-contrast marking on pipes and insulation

Part #	Color
61101	Black
61101WHT	White
61101BLU	Blue
61101RED	Red
61101YEL	Yellow
61101GRE	Green
61101ORG	Orange

Ceiling Locator Tacks

Ceiling Locator Tacks are ideal for marking the location of dampers, booster coils, and controllers above acoustical ceiling tiles. Simply push equipment locator tacks into ceiling tile or insulation near closest access point.

- ⅞" ceiling tacks
- Come in packs of 25
- Serrated ceiling markers with or without removable retention disk fastener available
- Multiple colors available

TAPE

1. Arrow & Banding Tape

Arrow & Banding Tapes are designed from MS-900 Self-Adhesive material. Use arrow tape to indicate the direction of flow and banding tape for pipe color-coding.

2. Underground Warning Tape

Underground Warning Tape guards against potentially dangerous or costly scenarios while digging. Available in either detectable or non-detectable options.

3. MS-511 Barricade & Warning Tape

Designed to alert people of potentially dangerous areas or situations. This highly visible tape keeps your personnel safe.

MS-900 Self-Adhesive Banding Tape

MS-900 Self-Adhesive Banding Tape is used when engineering specifications or customer preferences require pipe color-coding.

- Add UV Overlaminate for outdoor use
- Complies with MIL-SPEC 101C
- Standard sizes: 1" and 2" wide by 50 yds. long
- Also available in 3", 4", and 6" wide rolls
- Self-adhesive

Color	1" x 50yd Part #	2" x 50yd Part #
YEL	96101	96201
GRN	96102	96202
RED	96103	96203
BLU	96104	96204
BRN	96015	96205

BLK	96107	96207
GRY	96108	96208
ORG	96109	96209
PUR	96110	96210

MS-900 Self-Adhesive Arrow Tape

Designed to indicate direction of flow when used with MS-900 Pipe Markers.

- Standard roll sizes are 1", 2", and 4" wide by 30 yds. long
- Complies with ANSI/ASME A13.1 requirement to show flow direction
- Custom sizes and colors available
- Self-adhesive

Use this chart to determine how many rolls of tape are required.

Pipe Diameter	Tape Length	# Bands/Roll
2"	8" Band	135
4"	14" Band	77
6"	21" Band	51
8"	27" Band	40
10"	35" Band	30
12"	41" Band	26

Size	Yellow w/ Black	Green w/ White	Red w/ White	Blue w/ White	Green w/ Black	Orange w/ Black	White w/ Black
1" x 30 yds.	95101	95102	95103	95104	95105	95106	95107
2" x 30 yds.	95201	95202	95203	95204	95205	95206	95207
4" x 30 yds.	95401	95402	95403	95404	95405	95406	95407

Underground Warning Tape

Designed to be buried above metallic underground piping or cables to warn excavators of utility lines and guard against costly and dangerous dig-ins.

• Non-adhesive 4 mil. polyethylene tape, surface printed
• Custom legends available

Legend	Text/Background Color	3" Part #	6" Part #

MS-511 Barricade & Warning Tape

These Barricade & Warning Tapes aid in preventing accidents by increasing the visibility of hazards.

• Custom legends available
• Highly visible
• 4 mil. thickness
• Red, yellow, green, blue, or purple background available

Legend	Text/Background Color	Part #

Detectable Underground Warning Tape

Detectable Underground Warning Tape locates buried non-metallic pipes before you dig.

• Printed 4.5 mil. foil lets you use any standard metal detector to quickly locate underground services
• Recommended burial depths: 3" tape – Less than 24" deep; 6" tape – More than 24" deep
• Custom legends available

Don't see the tape you need? Go custom!

We can design custom tape to meet your specifications.

TAGS

1. Valve Tags

Easily communicates the coding of valves and instrumentation. Available in multiple materials such as MS-215, engraved plastic, brass, stainless steel, and aluminum.

2. Equipment Tags

These tags are designed for labeling pumps, fans, air handling units, and other critical equipment. Available in MS-215 flexible or rigid thermoplastic, engraved plastic, stainless steel, or enameled aluminum.

3. Accident Prevention Tags

Our Accident Prevention Tags draw attention to potentially dangerous or abnormal situations. They can be used for tagging equipment to convey specific characteristics, maintenance instructions, procedures, or warnings.

MS-215 Valve Tags

These high-performance tags protect the graphics from environmental conditions, making them the recommended choice for harsh environments. The tags can be secured with a variety of fasteners. Reflective and photoluminescent materials are available upon request.

- Available in sequential or one-off numeric legends
- Excellent outdoor life and chemical resistance
- Comes with one standard grommet
- Custom colors, sizes, and legends available
- Available with QR codes

Brass Valve Tags

Brass Valve Tags are an effective choice for labeling valves and systems.

- Available in sequential or one-off numeric legends
- .032" thick tags are available in 1½″ and 2″ round or square
- Comes with one standard ³⁄₁₆″ mounting hole
- Custom sizes and legends available

Anodized Aluminum Valve Tags

Easy to read Anodized Aluminum Valve tags provide a highly visible contrast between the engraved legend and the colored background. Use to tag valves, instruments, small piping, cables, or fugitive emission locations.

- Available in sequential or one-off numeric legends
- .032" thick tags are available in 1½″ and 2″ round or square
- Comes with one standard ³⁄₁₆″ mounting hole
- Background colors available: green, red, blue, gold, black, orange, and natural
- Custom sizes and legends available

Aluminum Valve Tags

These Aluminum Valve Tags are a durable option for a variety of identification needs. Tags come with high contrast permanent black text that is heat, chemical, and abrasion resistant, making them ideal for harsh environments.

- Can be used indoors/outdoors
- Custom sizes and legends available
- Multiple mounting options available

Stainless Steel Valve Tags

Designed to withstand frequent wash downs, chemical cleanings, high temperatures, and highly corrosive or caustic environments. This makes them an excellent choice for harsh environments.

- Can be used indoors/outdoors
- Black engraved text for visibility & durability
- Custom sizes and legends available
- Available with QR codes

Engraved Plastic Valve Tags

- Engraved legend clearly shows against contrasting background, making the tags easy to read
- Standard tags are engraved on ¹⁄₁₆" plastic with mounting holes or adhesive backing
- ⅛" and ¹⁄₁₆" thick 3 ply available
- Can be used indoors/outdoors
- Custom colors, sizes, and legends available
- Comes with one standard top hole

Engraved Plastic Equipment Tags

- Engraved legend provides high contrast between letter color and background color for easy visibility
- Excellent for in-house maintenance programs, building graphics, and door labels
- For indoor and outdoor applications
- Standard tags are engraved on ¹⁄₁₆" plastic with mounting holes or adhesive backing
- ⅛" and ¹⁄₁₆" thick 3 ply available
- Custom colors, sizes, and legends available

Enameled Aluminum Equipment Tags

Enameled aluminum makes aesthetically pleasing and small durable equipment tags. Standard uses include in-house maintenance programs, machinery numbering, building graphics, and door labels.

- Available in both black and white enameled aluminum
- White enamel recommended for indoor use only, add UV Overlaminate or Rugged-Kote for outdoor use
- Black enamel can be used indoors/outdoors
- Custom colors, sizes, and legends available

MS-215 Equipment Tags

Complete printing flexibility – each unique tag can include multiple lines of text, equipment numbers, operation and maintenance instructions, safety precautions, or other critical asset information.

- Excellent outdoor life and chemical resistance
- Flexible or rigid material available
- Available with adhesive or grommets
- Custom colors, sizes, and legends available
- Available with QR codes

Stainless Steel Equipment Tags

Stainless Steel Equipment Tags are designed to withstand frequent wash downs, chemical cleanings, high temperatures, and highly corrosive or caustic environments. This makes them an excellent choice for industries with harsh operating environments such as ammonia facilities, offshore rigs, and power plants.

- Can be used indoors/outdoors
- Black engraved text for visibility & durability
- Custom sizes and legends available
- Available with QR codes

Accident Prevention Tags

Used to tag equipment for lockout during maintenance, convey characteristics specific to a piece of equipment, or detail maintenance instructions and operating procedures.

- Highly visible printed legends will remain effective both indoors and outdoors (24-month outdoor use recommended)
- Each Accident Prevention Tag is 5¾" x 3" standard size (custom sizes available upon request)
- Stainless steel grommets are used to prevent tearing during use
- Comes with 8" nylon ties for easy installation

Ordering Accident Prevention Tags

- Determine the four-digit part number
- To order self-laminating, add SL before the part number
- To determine which back, add 1 or 2 to the end of the part number
- Example: To order a self-laminating ACID tag with back 1, order part #SL40021. A regular ACID tag with side 2 would be part #40022.
- To place an order: scan the QR code to order online or utilize the contact information listed below

Available with custom QR codes.

Back 1   Back 2   Self-laminating tags

SIGNS

1. Equipment Signs

Our Equipment Signs are offered in a variety of materials for different industries. We have options to conform to regulatory & international guidelines, or completely custom options to meet your needs.

2. GHS Signs

Communicate health & safety, chemical, and environment information to facility personnel. With excellent resistance to environmental conditions, these signs are perfect for both indoor and outdoor applications.

3. Operational & Safety Signs

Provides plant personnel with necessary information regarding hazard & equipment identification and operating procedures. Available in a variety of materials & sizes.

Stainless Steel Signs

Stainless Steel Signs are typically used in harsh environments. They are ideal for nameplates on machinery that continually run at high temperatures, or equipment & instrument identification in corrosive or caustic environments.

- Type 316 Stainless Steel
- Standard signs have radius corners
- Mounting holes or adhesive available for installation
- Black text is laser engraved for visibility and durability
- Available with QR codes
- Custom sizes and legends available
MS-215 Rigid & Flexible Signs

MS-215 Signs can be used in a variety of ways including naming and numbering tanks, vessels, or pieces of equipment.

- Flexible or rigid material available
- For mounting signs on curved surfaces, we recommend the flexible construction
- Excellent outdoor life and chemical resistance
- Available with QR codes
- Multiple mounting options available including adhesive or grommets
- Custom sizes, colors, and legends available

Anodized Aluminum Signs

Anodized Aluminum Signs identify critical equipment in both indoor & outdoor environments. They can also be used to show maintenance instructions, operating procedures, characteristics of a piece of equipment, and warn of potential danger.

- Legend provides excellent contrast
- Custom sizes, colors, and legends available

Don't see the sign you need? Go custom!

Reach out to us today, we will design any custom sign to meet your specific needs.

Enameled Aluminum Signs

Enameled Aluminum Signs are used to identify critical equipment, show maintenance instructions, operating procedures, and warn of potential danger.

- Available in both black and white enameled aluminum
- White enameled signs recommended for indoor use only. Add UV Overlaminate or Rugged-Kote for outdoor use
- Black enamel can be used indoors/outdoors
- Comes with standard ³⁄₁₆" mounting holes (adhesive available)
- Custom sizes, colors, and legends available

Engraved Plastic Signs

These bright and durable engraved plastic signs can be used for in-house maintenance programs, machinery numbering, building graphics, and door signs.

- Engraving provides high contrast between letter color and background color for easy visibility
- For indoor or outdoor applications
- Standard signs are engraved on ¹⁄₁₆" plastic with mounting holes or adhesive backing
- ¹⁄₈" and ¹⁄₁₆" thick 3 ply available
- Excellent resistance to harsh environments
- Custom sizes, colors, and legends available

MS-215 GHS Signs

GHS Signs communicate information about possible health & safety situations, chemicals, and environments to facility personnel.

- Perfect for indoor or outdoor environments
- Flexible or rigid material available
- Excellent resistance to harsh environments
- Custom sizes, colors, and legends available

Operational & Safety Signs

Operational & Safety Signs provide plant personnel with necessary information regarding hazard & equipment identification and operating procedures. A variety of pre-set legends are available. Material options are either MS-215 rigid, MS-900 self-adhesive, or enameled aluminum.

- High-performance MS-215 Rigid Signs are the ideal choice for outdoor and harsh environments. (Available with grommets or adhesive)
- MS-900 Self-Adhesive Signs are ideal for indoor environments not subject to washdown chemicals (Add UV Overlaminate for outdoor use)

ELECTRICAL

1. Arc Flash Labels

These labels provide electricians and staff with information to maintain plant & personnel safety. Completely customizable for your specific application.

2. Nameplates

Our Nameplates are offered in a variety of different materials for different electrical labeling needs. We have options to conform to regulatory & international guidelines, or completely custom options to meet your needs.

3. Switch & Cover Plates

Our Switch & Cover Plates are the ideal option for marking all of your controls, circuits, and switches. Completely customizable to provide critical electrical information based on your specifications.

4. Conduit & Cable Markers

Provides labeling options for all electrical connections, including circuit numbers and source & designation of conduits and cables.

5. Cable Tray Markers

These markers are designed to allow you to label and identify junctions, branches, and trays leading to equipment.

PACK-BY BINDERS

Save time and labor by using our Pack-By Service & Binders to pre-sort your labels.

Organizing electrical labels on the job site can be difficult and lead to wasted time and money figuring out which labels need to go where. With Pack-By Binders, all of your labels will arrive in a binder that has been pre-sorted to your specifications prior to delivery.

Electrical labels can be sorted by:
- Building
- Floor
- Room
- Label type
- Application

Your binder will arrive accurately labeled with the different criteria that your labels need to be sorted by. Available labels for packaging include:

- Wire Markers
- Circuit Labels
- Electrical ID
- Custom labels

Tabs show exactly where the labels should be applied.

Binders are labeled by the specified sorting logic for easy storage and identification. of application.

MS-900 Self-Adhesive Arc Flash Labels

MS-900 Self-Adhesive Arc Flash Labels are designed to mark switchboards, panel boards, industrial control panels, meter socket enclosures, and motor control centers that require examination, adjustment, servicing, or maintenance while energized. All labels include a safety header and alert symbol.

- Made of premium-grade material with an acrylic pressure-sensitive adhesive
- Labels can be preprinted with custom information provided by the customer (must provide PDF artwork created to size)
- Labels comply with NFPA 70E, NEC Section 110, and OSHA safety requirements
- Add UV Overlaminate for outdoor use

MS-478 Self-Adhesive Arc Flash Labels

These premium Arc Flash Labels are custom printed with the information and safety header for your specific application. All labels include a safety header and alert symbol. Other information can include incident energy (cal/cm2), hazard category, PPE required, and boundary distances. These labels comply with the NFPA, NEC, and OSHA requirements.

- Made of pre-printed 2 mil. thick polyester
- Add UV Overlaminate for outdoor use
- Labels can be pre-printed with custom information provided by the customer (must provide PDF artwork created to size)

MS-215 Nameplates

- Excellent outdoor life and chemical resistance
- Flexible or rigid material available
- Complete printing flexibility – each unique nameplate can include multiple lines of text, equipment number, operation and maintenance instructions, safety precautions, or other critical asset information
- Available with adhesive or grommets
- Custom colors, sizes, and legends available
- Double sided tags available

Engraved Plastic Nameplates

- Engraved legend provides high contrast between letter color and background color for easy visibility
- Excellent for in-house maintenance programs, building graphics, and door signs
- For indoor and outdoor applications
- Standard nameplates are engraved on $\frac{1}{16}$" plastic with mounting holes or adhesive backing
- $\frac{1}{8}$" and $\frac{1}{16}$" thick 3 ply available
- Custom colors, sizes, and legends available

Stainless Steel Nameplates

Stainless Steel Nameplates are designed to withstand frequent wash downs or chemical cleanings, machinery that runs at high temperatures, and highly corrosive or caustic environments. This makes them an excellent choice for electrical labeling in harsh operating environments such as ammonia facilities, offshore rigs, and power generation. The black text is engraved for visibility as well as durability.

- Can be used indoors and outdoors
- Black engraved text
- Custom sizes and legends available

MS-478 Labels

MS-478 Labels are ideal for recording equipment information and settings with easy-to-read legends.

- Made from 2 mil. thick polyester
- Add UV Overlaminate for outdoor use
- Custom colors, sizes, and legends available

Plastic and Stainless Steel Switch & Cover Plates

Plastic and Stainless Steel Switch & Cover Plates can be engraved and color filled making them the ideal option for identifying important circuits such as those connected to emergency backup power. Customized switch plates take the mystery out of your switches by identifying critical electrical information based on your specifications.

• Multiple lines of text available
• Engraving allows for a wide variety of font choices
• Text height based on number of characters and available space
• No minimum order quantity
• For stainless steel engraved plates, our service leaves a tactile finish so that in the event of a fire, plate identification is still legible
• We can supply plates or work with your existing ones

Rotary Switch Plates

Mark all of your controls with our switch plates for smooth, mistake-free operations. Available in all standard switch configurations. Plates are made from ¹⁄₁₆" engraved plastic.

MS-970 Coiled Data Conduit & Cable Markers

Ideal for data centers, these markers are designed to efficiently and effectively mark, organize, and control the complex conduit found in data transmission, telecommunications, fiber optics, CATV, and electrical systems.

• Semi-rigid coiled markers wrap completely around conduit and remain secure without the use of adhesives
• Available with or without text
• Multiple color bands/color combinations available
• Custom widths available

Style	Conduit Diameter	Marker Width	Pieces per Stick
A	½" - 1"	2"	4
B	1⅛" - 2¼"	2"	4
C	2⅜" - 3¼"	2"	6
D	3⅜" - 4½"	2"	6
E	4⅝" - 5⅞"	2"	6

MS-995 Coiled Data Conduit & Cable Markers

MS-995 Coiled Data Conduit & Cable Markers are an excellent choice in harsh indoor or outdoor environments. These coils use color and/or text to communicate important information regarding service, end-user, or origin of conduit.

• Coils are sized to fit completely around the circumference of the conduit and adhere to themselves
• Constructed with UV Overlaminate, these markers provide maximum protection from UV and chemical exposure

Style	Conduit Diameter	Marker Width
A	Up to 1"	2"
B	1⅛" - 2¼"	2"
D	2½" - 4¾"	2"
E	5" - 7⅞"	2"

Stainless Steel Conduit & Cable Markers

Engraved Type 316 Stainless Steel Conduit & Cable Markers are designed for the highly corrosive environments of pharmaceutical manufacturing, petrochemical facilities, and other harsh environments. Markers are strapped onto cable using stainless steel or nylon strapping **(page 60).**

MS-900 Self-Adhesive Conduit & Cable Markers

MS-900 Self-Adhesive Conduit & Cable Markers are designed for labeling conduit, panel boxes, circuit breakers, and connections to equipment.

- Black text on orange labels provide a highly visible warning of potential electrical hazards
- Self-adhesive material ensures a durable, long-lasting indoor marker
- Custom legends and colors available
- ½" x 2½" labels are supplied/priced ten markers per sheet

Stock Legend	MS-900 ½" x 2½"	MS-900 1" x 8"	MS-900 2" x 9"	MS-970 Part #'s

Use this chart for MS-970 Part #'s

Order MS-970 Pipe Markers
- Determine the four-digit part number from the table for each legend (column 5)
- Use the marker style table above to determine appropriate size and add corresponding letter to end of part #
- Example: The marker "110 Volts" for 2" diameter would be part number 9780B
- Contact us for custom markers

MS-970 Coiled Conduit & Cable Markers

MS-970 Coiled Conduit & Cable Markers are designed to eliminate the confusion of tightly packed conduit and cable. The coiled design allows them to quickly snap around conduit or cable, clearly identifying voltages or functions. The durable material allows for maximum life in an indoor environment.

- Indoor use only
- No adhesive necessary

MS-900 Self-Adhesive Vinyl Box Labels

MS-900 Self-Adhesive Viny Box Labels are constructed using 4 mil. thick premium grade thermoplastic film with permanent acrylic pressure-sensitive adhesive. Designed for a wide variety of substrates and can be used for many general electrical labeling needs.

- Add UV Overlaminate for outdoor use
- Designed for smooth, flat surfaces
- Can be furnished individually or pre-cut in sheet form

Self-Laminating Wire Markers

Self-Laminating Wrap Around Wire and Terminal Markers are premium outdoor grade clear material with an acrylic pressure-sensitive adhesive. They are used to provide branch circuit or feeder numbers for power and lighting circuits and system color-coding.

- Can be pre-printed in custom colors including clear
- Text height based on wire size
- Markers come in sheets
- Quantity of markers per sheet dependent on size
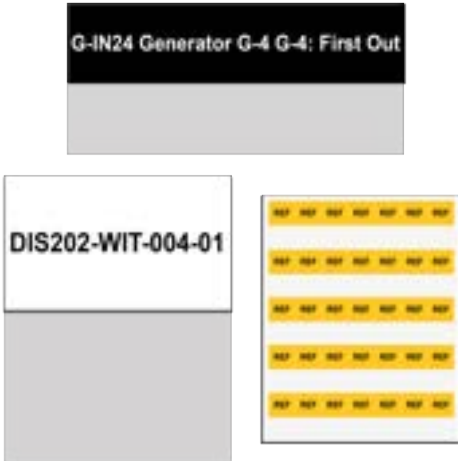

Heat Shrink Wire Markers

Heat Shrink Wire and Terminal Markers are designed to provide branch circuit or feeder numbers for power and lighting circuits and system color-coding.

- Installation can be done with any heat gun
- Standard marker color is black text on white background
- Custom colors and legends available

MS-264 Engraved Plastic Cable Markers

Ideal for labeling electrical cables in control panels, these markers display engraved legends that are easily legible. They are designed with a matte finish, beveled edges, and notches for secure installation using standard 50 lb. cable ties.

- Engraved plastic material has excellent resistance to harsh environments
- Can replace phenolic material
- Custom sizes, colors, and legends available

MS-215 Cable Tray Markers

These Cable Tray Markers are constructed of printed graphics sealed between layers of chemical resistant plastic. The durable material provides excellent resistance to harsh environments.

- Flexible or rigid material available
- Can be used indoors/outdoors
- Excellent resistance to UV exposure, abrasion, water, and harsh chemicals
- Flexible material is able to be mounted on curved surfaces
- Custom sizes, colors, and legends available

MEDIUM VOLTAGE CABLE TRAY

MS-478 Cable Tray Markers

MS-478 Cable Tray Markers are the ideal solution for identifying smooth-sided cable trays. Add UV Overlaminate for maximum protection against UV exposure and chemicals.

- Self-adhesive
- Easy installation with minimal surface preparation
- Custom sizes, colors, and legends available

CAB-015-200

MS-900 Self-Adhesive Cable Tray Markers

These markers are designed to allow you to label and identify junctions, branches, and trays leading to equipment. The self-adhesive material conforms to the shape of your tray and is easily applied with minimal preparation. Add UV Overlaminate for maximum protection against UV exposure and chemicals.

- Excellent option for indoor labeling
- Custom sizes, colors, and legends available

AL3-050-215

ELECTRICAL

FIRE PROTECTION

1. Fire ID Pipe Markers

These markers are used to identify the fire protection piping. The coiled design allows for easy installation by wrapping around the pipe and self-sealing.

2. Fire ID Labels & Signs

Fire ID Labels & Signs provide crucial information for access doors and fire risers & sprinklers to assist personnel in emergency response.

FIRE PROTECTION

MS-970 Coiled Pipe Markers

MS-970 Coiled Pipe Markers are constructed of semi-rigid material and are designed to identify piping in a wide variety of environments, especially in applications where the pipe surface is rough, oily, or wet. They stay in place on pipes due to the memory of the coiling process and do not rely on adhesives. Complies with ANSI/ASME A13.1.

- For pipe 6" in diameter and larger, use nylon straps to secure the plastic marker around the pipe
- Straps included

Pipe Diameter	Marker Style	Marker Width	Character Height	Marker Type
¼" - ⅜"	TM	3"	¼"	Coiled
½" - 1"	A	8"	½"	Coiled
1⅛" - 2¼"	B	8"	¾"	Coiled
2⅜" - 3¼"	C	12"	1¼"	Coiled
3⅜" - 4½"	D	12"	1¼"	Coiled
4⅝" - 5⅞"	E	12"	1¼"	Coiled
6" - 7⅞"	F	12"	1¼"	Strap-On
8" - 10"	G	24"	2½"	Strap-On
Over 10"	H	34"	3½"	Strap-On

Legend	Color	Part #
FIRE PROTECTION WATER	RED	9826
FIRE SPRINKLER WATER	RED	9736

MS-900 Self-Adhesive Fire Damper & Access Door Labels

Use MS-900 labels to identify the fire protection piping and fire damper access doors.

- Self-adhesive labels simply adhere to the surface with minimal preparation
- Labels can be customized to designate the specific system or zone
- Sizes and colors comply with the NFPA Standard

Legend	Size	Color	Part #
FIRE DAMPER ACCESS DOOR	3" x 3"	RED	67000
FIRE/SMOKE DAMPER ACCESS DOOR	3" x 3"	RED	67001

Legend	Color	1" x 8"	2¼" x 13"	4" x 24"
FIRE DAMPER	RED	91433	92433	93433
FIRE/SMOKE DAMPER	RED	91434	92434	93434
FIRE PROTECTION WATER	RED	91142	92142	93142
FIRE SPRINKLER WATER	RED	91143	92143	93143

MS-900 Self-Adhesive Fire Riser & Sprinkler Labels

- Identifies each riser to isolate for testing/maintenance
- Highly visible white on red printing provides quick identification for fire departments or in-house personnel
- Mark branch lines from control valve to isolate branch and eliminate the need to shut down the entire main header
Engraved Plastic Access Door Signs

- Engraving provides high contrast between letter color and background color for easy visibility
- Standard tags are engraved on ¹⁄₁₆" plastic with mounting holes or adhesive backing
- Custom sizes, colors, and legends available

White Enameled Aluminum Fire ID Signs

White Enameled Aluminum Fire ID Signs identify critical equipment and locations. The enameled background makes an easy to read and aesthetically pleasing equipment sign.

- Variety of mounting options available
- Custom sizes, colors, and legends available
- Add UV Overlaminate or Rugged-Kote for outdoor use

See our full fire protection product offerings

SOLAR

1. Solar Placards

Solar Placards are designed to withstand the harshest environments. Available in engraved plastic, MS-900 self-adhesive, or MS-215 material, they can be completely customized to meet project specifications.

2. Solar Sitemaps

Used to map out the equipment and layout of a solar site. These highly customized sitemaps are made with the exact specifications provided to us.

3. Solar Wire Markers

Used for labeling wires and terminals. These are an excellent choice for color-coding, identifying, and differentiating wires on a site.

4. Solar Labels & Signs

Available in multiple materials, our Solar Labels & Signs have a variety of pre-set or custom options. From job site information to warnings, these labels and signs are an excellent choice for any photovoltaic labeling.

*For Arc Flash Labels see **Page 30***

MS-215 Rigid Solar Placards

MS-215 Rigid Solar Placards are the ideal choice for photovoltaic labeling on your next solar project. They are constructed of printed graphics sealed between layers of chemical resistant plastic. The top layer is a durable thermoplastic that provides excellent resistance to process chemicals, protection from abrasion, and functions as a UV filter to prevent fading of printing and graphics.

- Excellent outdoor life and chemical resistance
- Available with QR codes
- Adhesive mounting
- Custom sizes, colors, and legends available

MS-215 Rigid "Warning" Solar Placards

MS-215 Rigid "Warning" Solar Placards are the ideal choice for photovoltaic labeling on your next solar project. They are constructed of printed graphics sealed between layers of chemical resistant plastic. The top layer is a durable thermoplastic that provides excellent resistance to process chemicals, protection from high impact, and functions as a UV filter to prevent fading of printing and graphics.

- Fixed "Warning" header

Engraved Plastic Solar Placards

These durable placards are an excellent choice for photovoltaic labeling. The engraved legend provides excellent contrast against the background of the placard. Placards come with adhesive backing and surface preparation is recommended before application.

- Excellent outdoor life and abrasion resistance
- Adhesive mounting
- Custom sizes, colors, and legends available

Engraved Plastic "Warning" Solar Placards

These durable placards are an excellent choice for photovoltaic labeling. The engraved legend provides excellent contrast against the background of the sign. Placards can be used indoor or outdoor and come with adhesive backing. Surface preparation is recommended before application.

MS-215 Solar Sitemaps

Used to map out the equipment and layout of a solar site. These highly customizable sitemaps are extremely durable and can be made to exact specifications.

- Excellent outdoor life and chemical resistance
- Available with QR codes
- Custom sizes and colors available
- Manufactured with a customer provided PDF
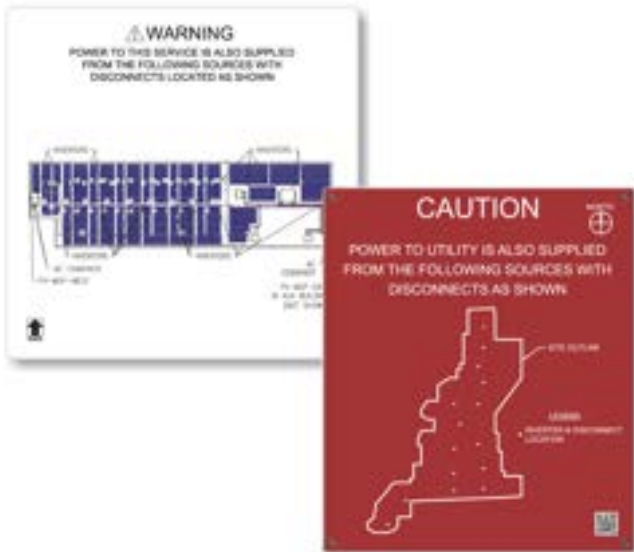

Self-Laminating Solar Wire Markers

Self-Laminating Wrap Around Wire and Terminal Markers are made from premium outdoor-grade clear material with an acrylic pressure-sensitive adhesive. They are used to provide branch circuit or feeder numbers for power and lighting circuits and system color-coding.

- Can be pre-printed in custom colors including clear
- Text height based on wire size
- Markers come in sheets
- Quantity of markers per sheet depends on size

Engraved Plastic Solar Sitemaps

Used to map out the equipment and layout of a solar site. These highly customizable sitemaps are extremely durable and can be made to exact specifications. The engraved design provides a durable option for long-term use.

- Engraved legend provides excellent contrast against the background of the sitemap
- Excellent outdoor life and abrasion resistance
- Custom sizes and colors available
- Manufactured with a customer provided PDF

Heat Shrink Solar Wire Markers

Wire and Terminal Markers are designed to provide branch circuit or feeder numbers for power and lighting circuits and system color-coding.

- Installation can be done with any heat gun
- Standard marker color is black text on white background
- Custom colors and legends available

MS-900 Self-Adhesive Solar Sitemaps

Used to map out the equipment and layout of a solar site. These highly customizable sitemaps are extremely durable and can be made to exact specifications.

- UV Overlaminate included for outdoor use
- Easy installation with minimal surface preparation
- Custom sizes and colors available
- Manufactured with a customer provided PDF

MS-215 MV Cable Labels

These MS-215 MV Cable Labels are constructed of printed graphics sealed between layers of chemical resistant plastic. The durable and flexible design allows for mounting on curved surfaces.

- Flexible material
- Excellent resistance to UV exposure, abrasion, water, and harsh chemicals
- Custom sizes, colors, and legends available
- Reflective material available

MS-900 Self-Adhesive Solar Labels

MS-900 Self-Adhesive Solar Labels with UV Overlaminate are an excellent choice for photovoltaic labeling. The self-adhesive design allows for easy installation with limited surface preparation. The UV Overlaminate gives great outdoor durability and extended life.

• Self-adhesive
• Custom sizes, colors, and legends available
• NEC compliant

SOLAR PV SYSTEM EQUIPPED WITH RAPID SHUTDOWN

TURN RAPID SHUTDOWN SWITCH TO THE "OFF" POSITION TO SHUT DOWN PV SYSTEM AND REDUCE SHOCK HAZARD IN THE ARRAY.

SOLAR ELECTRIC PV PANELS

MS-900 "Warning" Self-Adhesive Solar Labels

Available in a variety of pre-set or custom options with a fixed "Warning" header. They can be easily installed with minimal surface preparation. Labels come with standard UV Overlaminate, protecting them from UV exposure and making them a durable option for outdoor labeling needs.

• Self-adhesive
• Variety of pre-set legends
• Custom sizes, colors, and legends available
• NEC compliant

⚠ WARNING ⚠

ELECTRICAL SHOCK HAZARD

THE DC CONDUCTORS OF THIS PHOTOVOLTAIC SYSTEM ARE UNGROUNDED AND MAY BE ENERGIZED

Aluminum Solar Signs

These custom signs are ideal for keeping a job site safe and informed. Each sign comes coated with our high-performance proprietary and environmentally friendly Rugged-Kote surface treatment, making them a great outdoor sign. Signs come standard with 4 corner holes, allowing them to be easily attached to fences or gates with a fastener. Other mounting options available upon request.

• Easy installation
• Optional hog rings available for mounting
• Custom sizes, colors, and legends available

AMMONIA

1. Ammonia Pipe Markers

Available in our MS-900 or MS-995 material, these IIAR-Compliant markers are ideal for cold storage areas or any other ammonia environment.

2. Component Markers

Available in MS-215 or MS-900 material, these durable Component Markers are an IIAR-Compliant solution to label your ammonia equipment.

3. CO2 Pipe Markers

Available in our MS-900 or MS-995 material, these markers are ideal for cold storage areas or any other CO2 environment.

4. Ammonia Signs

Made with our MS-215 material these charts and signs are designed to withstand harsh ammonia environments and keep your personnel safe and informed.

Ammonia Refrigeration Marker Layout

| 1 | 2 | 2 | 3 AMMONIA | 4 | 5 |

Each marker has five information parts
1. Ammonia Piping Abbreviation Section
2. Physical State: LIQ (Orange or Yellow) and/or VAP (Blue)
3. Ammonia: Black letters on Orange or Yellow background
4. Pressure Level: GREEN = LOW (70 PSIG or less)
    RED = HIGH (greater than 70 PSIG)
5. Directional arrow (printed on marker) - scored

MS-995 Coiled & Curved Carrier Ammonia Markers

These maximum performance pipe markers can stand up to high heat, harsh chemicals, and direct exposure to sunlight, which makes them an excellent choice for an ammonia environment.

- Construction provides proven protection from effects of direct sunlight
- Pipe markers can be removed or reinstalled
- Pre-coiled pipe markers install easily by wrapping completely around pipe and affixing to themselves (not the pipe surface) with a sealing strip, eliminating the need for surface preparation
- Available in yellow and safety orange per the revised ANSI/IIAR 2-2021.
- The MF, MJ, and M markers consist of a legend label applied to a durable carrier. Markers are attached to pipes using stainless steel straps (see **page 62**). They are designed for easy installation and high visibility on rooftop or elevated piping
- Locking tool for coil straps available for purchase (see **page 63**)

MS-900 Self-Adhesive Ammonia Pipe Markers With UV Overlaminate

The premium self-adhesive material allows these markers to be installed with minimal surface preparation. The scored arrow conveniently eliminates the need to determine direction of flow prior to ordering. Follows the revised ANSI/IIAR 2-2021.

- Available without UV Overlaminate for indoor use
- Custom legends, sizes, and bands available

MS-900 Self-Adhesive Component Markers With UV Overlaminate

IIAR-Compliant Component Markers include black letters on a yellow or orange background with a high or low-pressure band.

- Available without UV Overlaminate for indoor use
- Easy installation with minimal surface preparation
- Recommended sizing is 4" x 8", 4" x 16", and 4" x 32" with 2½" text height
- Custom sizing available

MS-215 Component Markers

IIAR-Compliant Component Markers include black letters on a yellow or orange background with a high or low-pressure band. Available in flexible or rigid material with adhesive or magnetic backing.

- MS-215 material provides excellent resistance to harsh environments
- Can be used on a variety of surfaces including curved
- Recommended sizing is 4" x 8", 4" x 16", and 4" x 32" with 2½" text height
- Custom sizing available

MS-995 Curved Carrier CO2 Pipe Markers

These maximum-performance pipe markers are designed for use in harsh environments where chemicals and UV exposure are prevalent, making them an ideal choice for CO2 environments. The curved shape improves durability and helps to reduce direct exposure to sunlight. This strap-on style marker has 2 slotted nylon feet that secure the marker to the pipe. Stainless steel strapping is recommended for mounting. See mounting options on **page 62.**

- Custom legends available
- Can be removed & reinstalled when insulating or painting
- Consider insulation when selecting size of pipe diameter
- For sizing see chart on **page 47**

MS-995 Coiled CO2 Pipe Markers

These maximum-performance pipe markers stand up to high heat, harsh chemicals, and direct exposure to sunlight, which makes them an excellent choice for a CO2 environment. The semi-rigid coiled design allows them to be easily installed with no surface preparation, as the marker wraps completely around the pipe and adheres to itself with a sealing strip.

- Custom legends and bands available
- Can be removed and reinstalled when insulating or painting
- Consider insulation when selecting size of pipe diameter
- For sizing see chart on **page 47**

MS-900 Self-Adhesive CO2 Pipe Markers With UV Overlaminate

Ideal for cold storage areas, these markers are made from a premium self-adhesive material that allows them to be easily installed with proper surface preparation. The scored arrow conveniently eliminates the need to determine the direction of flow prior to ordering.

- Available without UV Overlaminate for indoor use
- Custom legends, sizes, and bands available
- Consider insulation when selecting size of pipe diameter
- For sizing see chart on **page 48**

MS-215 Rigid Auxiliary/Principal Door Signs

Auxiliary/Principal Door Signs are placed at all entrances to machinery rooms. These signs are specifically designed to provide a clear hazard warning for employees in food processing plants, mills, and cold storage facilities. Designed with MS-215 rigid material to withstand harsh environments.

- Follow ANSI/IIAR 2-2008 standards (including Addendum A) for the identification of piping, valves, and components
- Can be used indoors/outdoors
- NFPA Diamond standard sizing is 12" x 12"
- Mounting options include adhesive back or 4 corner grommets
- Custom sizes, colors, and legends available

MS-300 Signs

MS-300 Signs are constructed by subsurface printing on a tough, transparent, thermoplastic material. MS-300 products are suitable for labeling in an FDA compliant environment. They hold up well to radiation and chemical sterilization techniques and are ideal for food & beverage environments.

- Excellent chemical and water resistance
- Can be used in chemical wash down systems (CIP systems)
- Designed for indoor use

MS-215 Rigid Ammonia Wall Charts

These PSM approved Ammonia Wall Charts convey information that appears on ammonia labels used in your facility.

- MS-215 material provides excellent resistance to harsh environments
- Can be used indoors/outdoors
- Orange and yellow options available
- Custom colors, sizes, and legends available

MS-215 Rigid Refrigeration Contractor Signs

PSM approved Contractor Signs are used to convey critical information concerning contractor contact information, chemicals, and other information like design pressures and total system charge in lbs.
- Custom sliders can be requested for frequent text and content changes
- Can be used indoors/outdoors
- MS-215 material provides excellent resistance to harsh environments
- Multiple mounting options available (see **page 60**)

MS-215 Ammonia Tank & Vessel Signs

These signs are designed to name each tank and vessel. The rigid material is extremely durable and is mounted using our heavy-duty adhesive.

- MS-215 material provides excellent resistance to harsh environments
- Can be used indoors/outdoors
- Multiple mounting options available (see **page 60**)
- Customizable

MS-215 Rigid Control Bank Signs

MS-215 Rigid Control Bank Signs are used to identify control stations & valve groups within facilities and provide critical information for safe and efficient ammonia system operations.

- MS-215 material provides excellent resistance to harsh environments
- Can be used indoors/outdoors
- Custom colors, sizes, and legends available
- Multiple mounting options available

MS-215 Multi-Port Valve Tags

Use to identify various ports of your multi-port valves. MS-215 Multi-Port Valve Tags provide crucial information regarding inlet, outlet, bypass, drain, and recirculation functions.

- MS-215 material provides excellent resistance to harsh environments
- Available in both rigid & flexible material
- Can be used indoors/outdoors
- 3, 4, 5, 6, & 7 port layouts available
- Custom colors, sizes, and legends available
- Multiple mounting options available

Stainless Steel Multi-Port Valve Tags

Use to identify various ports of your multi-port valves and provide crucial information regarding inlet, outlet, bypass, drain, and recirculation functions. These tags are designed to withstand frequent wash downs or chemical cleanings, high temperatures, and highly corrosive or caustic environments.

- Black engraved text for visibility & durability
- Can be used indoors/outdoors
- 3, 4, 5, 6, & 7 port layouts available
- Custom sizes and legends available
- Multiple mounting options available
MARINE & OFFSHORE

1. Pipe Markers

Designed to withstand direct sunlight, saltwater, and chemicals, our premium coiled and carrier pipe markers are the ideal choice for a marine & offshore environment.

2. Safety Boards

Safety Boards provide critical information regarding hazard & equipment identification, operating procedures, and evacuation & escape procedures.

3. Equipment Tags & Signs

Equipment Tags & Signs are an integral part of any safety system that aims to reduce the risk related to spills, accidents, and injuries from improper use within the installation.

4. IMO & Egress Safety Signs

Specifies important safety and operational information to on-board personnel in a direct manner to provide faster user response time. Our IMO & Egress Signs are photoluminescent providing critical information in the event of an emergency where low-light visibility is needed.

Specializing in regulatory compliance solutions for global standards (US Coast Guard, NORSOK, Mexico NORMS, Brazil NR, etc.), we have established a standardized signage system that communicates effective safety information to people who travel and work on-board ships and other marine installations.

We have the capability to do offshore gap analysis surveys to ensure that your installation is operationally ready.

Operation & Instruction Boards

Operation & Instruction Boards are imperative to convey mandatory warning and prohibition messages to ensure safe work practices. Designed with MS-215R, MS-215F, or Aluminum Composite material, they can be magnetic backed, magnetic receptive, or dry erase.

- Custom design and sizing available
- Indoor or outdoor use
- Material can vary
- Custom sizes available
- Dual language sliders/solutions available

MS-995 Coiled & Carrier Marine & Offshore Pipe Markers

MS-995 Pipe Markers are maximum performance pipe markers that stand up to high heat, harsh chemicals, and direct exposure to sunlight, which makes them an excellent choice for a marine & offshore environment.

- Specifies content, To/From information, and directional flow
- Color-coded for easy identification
- Construction provides proven protection from effects of direct sunlight
- Negates galvanic corrosion
- Service temperature range from -40° F to 250° F
- Eliminates need for pipe surface preparation
- Can be removed and reinstalled
- High temperature and oversized markers are also available
- 5+ years expected outdoor durability

MS-995 Pre-Coiled Pipe Marker

MS-995 Pre-Coiled Pipe Markers install easily by wrapping completely around pipe and affixing to themselves (not the pipe surface) with a sealing strip. Recommended use on insulated pipes.
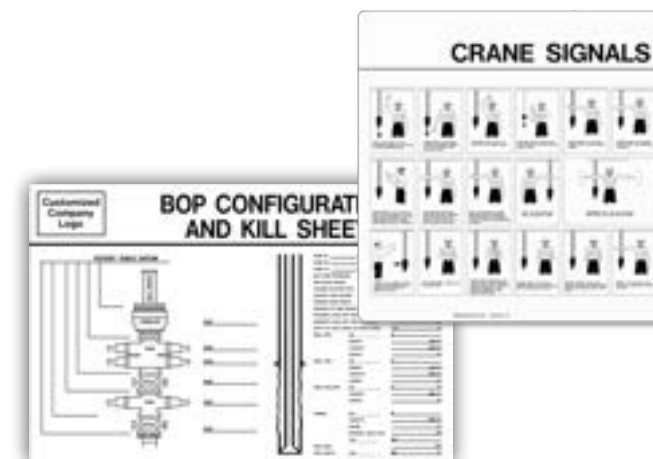

MS-995 Carrier Pipe Marker

These markers consist of a legend label applied to a durable carrier. Markers are attached to larger diameter pipes using coated stainless steel straps. See mounting options on **page 60**. They are designed for easy installation and high visibility on elevated piping. Recommended for use on uninsulated pipes.

Communication Boards

Communication Boards communicate and inform all crew on board of health and safety policies. Designed with MS-215R, MS-215F, or Aluminum Composite material, they can be magnetic backed, magnetic receptive, or dry erase.

- Custom design and sizes available
- Perfect for multi-language sites
- Indoor or outdoor use

Compartment Boards

Compartment Boards are installed at compartment entrances and exists throughout your facility. Use to consolidate pictograms and safety & warning signs. Designed with MS-215R, MS-215F, or Aluminum Composite material, they can be magnetic backed, magnetic receptive, or dry erase.

- Custom design and sizes available
- Perfect for multi-language sites
- Indoor or outdoor use

MS-215 Carrier Equipment Tags

- Excellent outdoor life and chemical resistance
- Available with QR codes
- Designed for easy installation and high visibility
- Curved design is ideal for utilization on curved surfaces
- Custom sizes, colors, and legends available
- See **page 21** for stainless steel, MS-215, and other tag options

MS-215 Rigid & Flexible Equipment Signs

MS-215 Signs can be used in a variety of ways including naming and numbering tanks, vessels, or pieces of equipment.

- Excellent outdoor life and chemical resistance
- Available with QR codes
- Multiple mounting options available including adhesive, grommets, or strapping
- Custom sizes, colors, and legends available

Stainless Steel T-Card Box with Muster Board

Located at lifeboat & raft muster stations. These signs are designed to provide assembly points and designate personnel to muster in case of an emergency.

LIFEBOAT 1

T-CARD BOX 72 SLOTS

Regulatory Signs

These durable Regulatory Signs are perfect for multi-language sites and are required by the U.S Coast Guard for security purposes on offshore facilities. Designed with MS-215R, MS-215F, or Aluminum Composite material, they can be magnetic backed, magnetic receptive, or dry erase.

- Custom design and sizes available
- Indoor/outdoor use

IMO Signs - Fire Control Equipment Signs

Use to identify fire control equipment onboard ships and as part of the IMO Required Fire Plan these signs will clearly identify fire control equipment in the event of a total loss of light. Available in outdoor grade MS-215 Rigid Photoluminescent or MS-960 Self-Adhesive Photoluminescent Material.

- MS-215 material provides excellent outdoor life and chemical resistance
- Comply with IMO/SOLAS requirements
- Contact us for more Fire Control Equipment Sign options

International Safety - Firefighting Signs

Use to identify firefighting equipment, these signs quickly convey crucial information on multi-language sites. Available in outdoor grade MS-215 Rigid Photoluminescent or MS-960 Self-Adhesive Photoluminescent Material.

- MS-215 material provides excellent outdoor life and chemical resistance
- Contact us for more Fire Fighting Sign options

International Safety - Mandatory Pictograms

Use to provide mandatory PPE information to staff and visitors on multi-language sites. Available in outdoor grade MS-215 Rigid Photoluminescent or MS-960 Self-Adhesive Photoluminescent Material.

- MS-215 material provides excellent outdoor life and chemical resistance
- Contact us for more Mandatory Pictogram options

Contact us to learn more about our full IMO & egress sign offerings

IMO Signs - Evacuation & Escape

Use to identify essential evacuation and escape routes. Available in outdoor grade MS-215 Rigid Photoluminescent or MS-960 Self-Adhesive Photoluminescent Material.

- MS-215 material provides excellent outdoor life and chemical resistance
- Comply with IMO/SOLAS requirements
- Contact us for more Evacuation & Escape Sign options

International Safety - Safe Condition Signs

Safe Condition Signs are used to show locations for safety equipment, eye wash stations, and safety showers. Available in outdoor grade MS-215 Rigid Photoluminescent or MS-960 Self-Adhesive Photoluminescent Material.

- MS-215 material provides excellent outdoor life and chemical resistance
- Contact us for more Safe Condition Sign options

Mounting Options

Our tag & sign mounting options are designed for a variety of our identification products. These user-friendly, durable products ensure your label stays securely in place.

Stainless Steel Swage Sleeves
Stainless Steel Swag Sleeves come in type 316 stainless steel making them a durable mounting option.

- Part #15746
- 100 per bag
- Use with Stainless Steel Braided Wire Coil part #15747

Stainless Steel Braided Wire
Type 316 Stainless Steel Braided Wire for fastening labels.

- Part #15747
- Supplied in 100 ft. rolls
- Use Stainless Steel Swage Sleeves for fastening part #15746

Stainless Steel Braided Wire With Swage Sleeve
Stainless steel type 316 braided wire/crimp combination with pre-attached crimp.

- Part #15750
- Crimps to itself
- 10" long

Zinc Snap Hook Fasteners
These fasteners are an easy way to open and close snap hooks, used for installing valve tags.

- Part #15798
- 100 per box

Brass & Stainless Steel Jack Chain
Available in brass or stainless steel, these durable jack chains are designed for fastening tags.

- Brass part #15760
- Stainless Steel part #15761
- Packed 50 ft. per box to hang approximately 60 tags

Brass & Stainless Steel Bead Chain
Available in brass or stainless steel, bead chains are designed for fastening tags.

- Brass part #15765
- Stainless Steel part #15766
- Comes in 4½" lengths including locking link
- 100 lengths per bag

Lead Meter Seals
Available in copper or stainless steel wire, Lead Meter Seals are a fast and permanent way to attach valve tags.

- Supplied in 10" lengths
- 100 lengths per pack
- Stainless steel part #15797

Stainless Steel Mounting Brackets
Used with stainless steel banding to mount signs or pipe markers onto piping or tanks.

- Hardware included

Valve Chart Frame
Aluminum valve chart frames for holding 8½" x 11" valve charts.

- Plastic or glass lens available
- Plastic Lens part #15790
- Glass Lens part #15791

Your Text Here

Construction Adhesive
Heavy duty adhesive that fits most caulk guns.

- Part #15769
- Comes in a 10.2 oz tube

Nylon Cable Ties
Nylon Cable Ties are a simple quick way to attach pipe markers, signs, and valve & equipment tags.

- Supplied in standard 8" lengths
- 36" and 48" lengths available for use with MS-970 Pipe Markers
- 100 ties per bag

Brass & Stainless Steel "S" Hooks
Available in brass or stainless steel, these sturdy and easy to close hooks are for attaching valve tags.

- Brass part #15770
- Stainless Steel part #15767
- 100 hooks per bag

Strapping

Our strapping options are designed for a variety of our identification products. These durable products are crafted with high-quality materials and are built to withstand demanding environments.

Pre-Cut Stainless Steel Strapping

Cut-to-length stainless steel straps are durable and ideal for highly corrosive or other harsh environments. These straps come with attached locking head, no clips required.

- ¼" wide straps
- Use with locking tool part #15715

Part #	Pipe Diameter	Size
15704	Up to 2 ½"	10"
15707	3" - 4 ¾"	16.5"
15710	5" - 8"	35"
15711	9"-12"	47"
15712	13" - 18"	60"

Pre-Cut Coated Stainless Steel Strapping

Coated ¼" wide stainless steel strapping with attached clips are designed for harsh environments where protection against potential galvanic reaction between dissimilar metals is required.

- Cut-to-length
- Use with carrier style markers
- Use with locking tool part #15716

Part #	Pipe Diameter	Size
15703	Up to 2 ½"	16"
15700	3" - 4 ¾"	24"
15701	5" - 8"	33"
157014	9"-12"	46"
157016	13" - 18"	65"

Coil of Strapping

Coil of Strapping is made from durable ⅜" wide stainless steel. Ideal for corrosive or other harsh environments.

- 200 ft. coil of ⅜" wide stainless steel
- Part #15729
- Locking Clip part #15734 and Locking Tool part #15716 available for ease of installation
- Use for attaching carrier pipe markers

Coated Coil of Strapping

Coated Stainless Steel Strapping is used for attaching carrier pipe markers and is ideal for corrosive or other harsh environments.
- 100 ft. coil of ¼" wide stainless steel
- Part #15727
- Locking Clip part #15728 and Locking Tool part #15716 available for installation

Locking Clips for Strap

These stainless steel locking clips are designed to be used with coiled strapping.

- Packaged 100 per bag
- ⅜" size for uncoated strap use part #15734
- ¼" size for coated strap use part #15728

Tools

These variety of tools are designed to make labeling installation an efficient, easy process. When used with our mounting and/or strapping products you can be assured your labels will be installed correctly and remain intact.

Sealing Press

Sealing Press is designed for sealing lead meter seals.

- Part #15796
- For use with lead meter seals (part #15797 or part #15795)

Crimp Tool

This Crimp Tool can be used during the installation of many markers, tags, and signs to crimp 10" wire crimp combo.

- Part #15749
- Use with Wire Crimp Combo part #15750 and part #15747 wire with part #15746 crimp (swag sleeve)

Cable Wire Cutter

Use to cut wire during the installation of markers, tags, and signs.

- Part #15748

Locking Tool for Coil Strap

Use to tighten and lock stainless steel banding during installation.

- Part #15716

Locking Tool for Coil Strap

Use to tighten and lock pre-cut stainless steel banding during installation.

- Part #15715
