

Description

MS-900 Self-Adhesive Ammonia Markers are constructed using a premium grade flexible thermoplastic film coated with a permanent acrylic pressure sensitive adhesive and laminated. Markers are laminated with MS-1000, a durable UV-resistant overlaminates. Labels include arrows which are used to indicate direction of flow.

MS-900 Orange Ammonia Markers meet the revised ANSI/IIAR 2-2021 Appendix Q (Guidelines for Identification of Ammonia Piping and System Components).
