

MS-900 Self-Adhesive Medical Gas Markers

Technical Data

Description

MS-900 self-adhesive medical gas markers are premium grade thermoplastic with an acrylic pressure-sensitive adhesive. They are used to provide line service designations and system color-coding. Manufactured per NFPA-99C; CGA C-9-2002 "Standard Industry Color Coding Recommendations for Medical Gases."

- Color, legend and flow direction combine on one pressure-sensitive marker for easy installation
- Clearly shows both contents and flow direction
- Supplied as individual labels
- Standard legends also available in 100-label rolls (See chart)
