

## Serrated Ceiling Tacks

### Technical Data

#### Description

Optional Flat Head Serrated Shank Tacks are ideal for marking the location of valves, dampers, booster coils and controllers above acoustical ceiling tiles. Tacks are steel with baked enamel coating. Simply push tack into ceiling tile or insulation near closest access point.

If required, the 3/4" diameter head can be written on with a marking pen. The tack with its 1.5" serrated shank can be used with or without the clear removable fastener piece.

Sold in packs of 25.
